**B. GENERAL MANAGER AND STAFF REPORTS**

1. General Manager's Report

Craig Miller, General Manager, reported that at the recent MWD meeting, a significant action was heard at the committee and board level to certify an Environmental Impact Report (EIR) for PURE Water. He stated that Western Water raised its voice and attempted to bring attention to the item, noting that it is a good project but is being brought forward at the wrong time. He further stated the District's opinion was voiced at the caucus meeting and the Engineering Committee, and that Western Water and others communicated that they would like MWD's focus right now to be on the budget and paying costs for reliable projects. He said PURE Water is still in the budget but has not been a board-approved project as yet and there is a concern that other long term viable projects, such as Sites Reservoir are not included in the budget. He discussed some MWD budget issues and said that Staff is working closely with Director Dennstedt to address the concerns and hope for the budget process. Mr. Miller discussed his recent activities, including his continued leadership at the California Municipal Water Association (CMUA) as its President, a phone call with Congressman Takano regarding Congressionally Directed Spending that the Congressman supported for Western Water, and Strategic Planning Sessions he and staff are engaged.

2. Water Supply Conditions Update

Josh Aguilar, Deputy Director of Water Resources, provided a water supply conditions update, stating that surface storage reservoirs and snow reservoirs levels look good. He reviewed the snow survey, noting that the snowpack is 60% of average and that the February and March snowfall will be important. He discussed hydrologic conditions in the Northern Sierra and Upper Colorado River and reviewed reservoir storage throughout the state and also locally. He announced that at the end of December 2025, for the first time in 25 years, the entire state was out of drought condition, however cautioned that the beginning of the year was dry and reminded the board that drought conditions will return but this is the time to prepare for those dry years. He talked about the State Water Project water allocation, saying it had been increased to a 30% allocation, and closed his report by discussing World Wetlands Day.

**C. DIRECTORS COMMENTS AND REQUESTS**

1. Report by SAWPA Representative

Director Gardner reported that the Commission authorized a Request for Proposal (RFP) for a building security project to provide fencing around the perimeter of SAWPA, as there has been an increase in theft events and property destruction by unhoused individuals. He also stated approval was given to compensate SAWPA board members for attendance at the recent 50<sup>th</sup> anniversary event and stated that the Board received a presentation from Orange County Sanitation District regarding a potential new method to break down PFAS and other contaminants in the water.

2. Report by MWD Representative

Director Dennstedt reported that MWD has set a public hearing for March 10, 2026, on proposed water rates and charges. **SITES RESERVOIR PROJECT UPDATE**

# Sites Reservoir Project Update

Western Municipal Water District

March 4, 2026

By: Jerry Brown

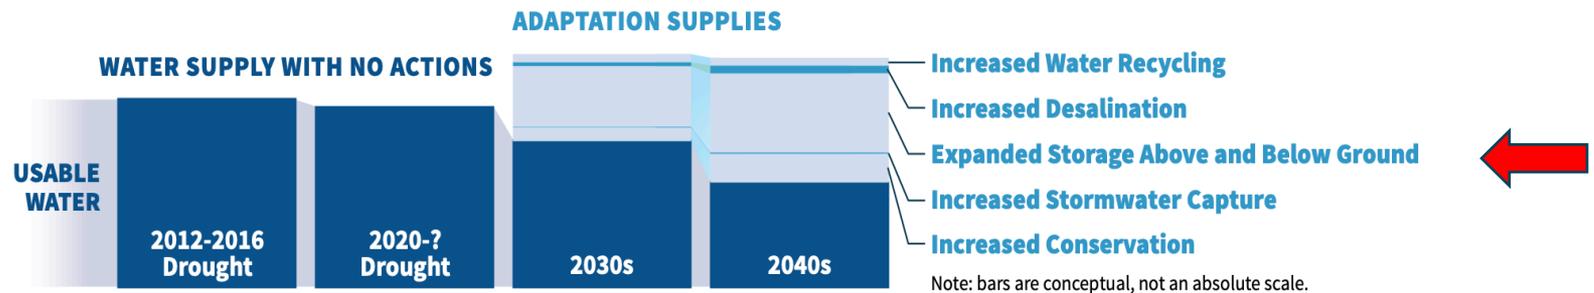

Sites Authority Executive Director

# What Problem Does the Sites Project Help Solve?

**Over the next 20 years, California could lose 10 percent<sup>1</sup> of its water supplies.**

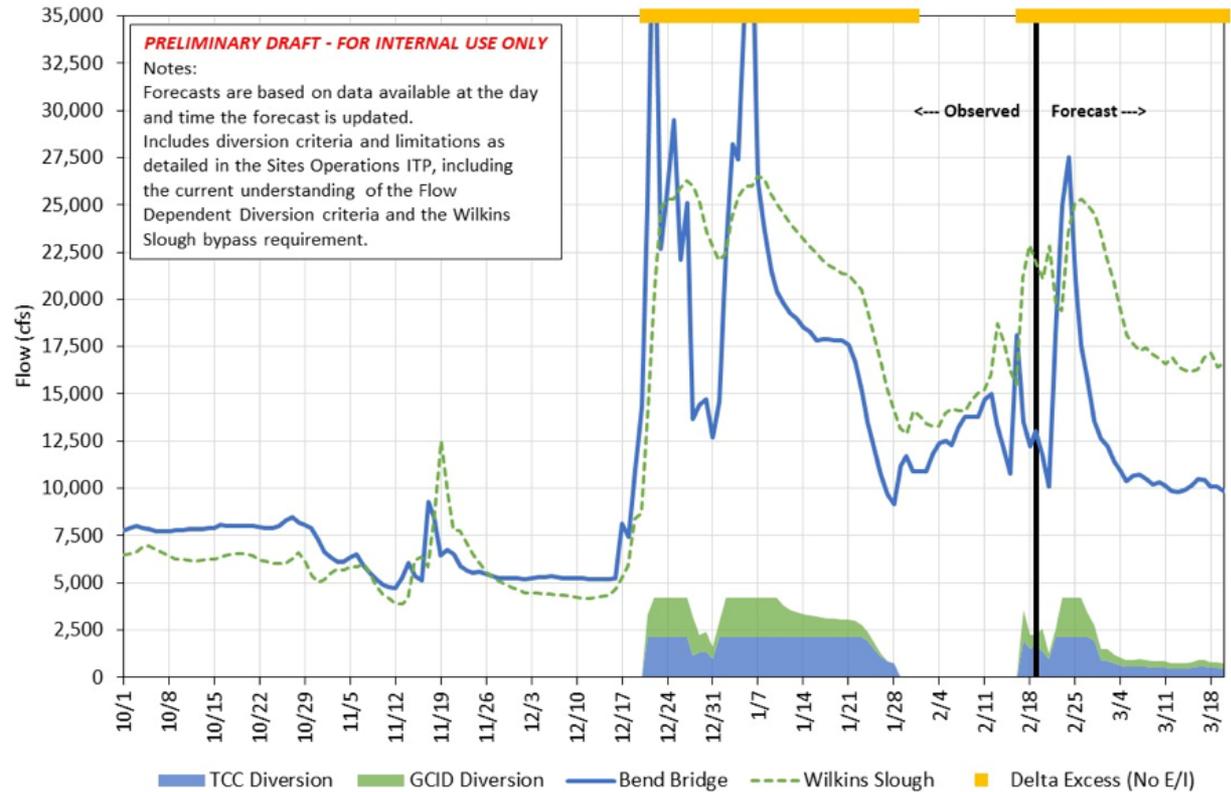

**Our climate has changed, and the West continues to get hotter and drier.** As it does, we will see on average less snowfall, more evaporation, and greater consumption of water by vegetation, soil, and the atmosphere itself.

**In previous droughts the ratio of precipitation to evaporation to runoff has been similar. However, as temperatures rise, evaporation increases, with the consequence of a fall in runoff. As average temperatures continue to increase, the increase in evaporation will continue, with a concurrent drop in runoff.**

# What if we had Sites today?

Water Year	Estimated Diversion
2023	700,000 AF
2024	840,000 AF
Total for WY23&24	1,540,000 AF (103% of capacity!!)
2025	550,000 AF
2026	~360,000 AF thru mid Mar

**Potential WY Diversion through 02/18: 264,245 acre-feet. Forecasted potential diversion for 02/19 through 03/21: 99,439 acre-feet.**

*Forecasts use CNRFC deterministic and 50% exceedance probability forecasts, and assume the Delta remains in an Excess condition unless otherwise indicated.*

# General Project Update

Water Right – draft order anticipated by end of Feb 2026 and final by end of Aug 2026

Critical permits and approvals – ITP's and BO (constr) received, 404/401 (wetlands) in progress, Sec 106/ROD complete

Construction Contractor Selections – underway

Land Acquisitions - ~ 90% of critical path project area acquired, TROEs being secured for enviro surveys

Engineering Design – completed to ~ 30% design, DSOD initial review complete (no red flags)

Cost Estimate and Schedule Update– cost updated in June 2025, schedule updated in January 2026

**RECOMMENDATION:**

The Finance Committee and Staff recommend the Board of Directors:

1. Receive and file the December 2025 Cash Disbursement Report.

**EXECUTIVE SUMMARY:**

The Cash Disbursement Report lists each check, bank transfer (wire), and electronic payment processed during the month of December 2025, with the exception of employee payroll disbursements.

**BUDGET IMPACT:**

This item has no budget impact.

**DETAIL:**

Western Municipal Water District's (Western Water) Cash Disbursement Report is prepared monthly and details the payment date, reference number, invoice number, payee, amount, and a short description of each expenditure. The major expenditures in

**Western Water | Regular Board Meeting**

**Agenda Item: 6B**

the report include purchased water, capital projects, debt service, contract services, utilities, employee benefits, maintenance, materials and supplies.

Western Water had total disbursements of approximately \$19.5 million during December 2025. Of this total, \$10.6 million was paid to the Metropolitan Water District of Southern California (MWD) for water purchases. This payment makes up 54% of the total disbursements. Adding in water purchases paid to the City of Riverside, Elsinore Valley Municipal Water District, and Eastern Municipal Water District, these payments make up 61% of the total disbursements.

Excluding water purchases, the three largest disbursements were: 1) a \$970 thousand payment to the Chino Basin Desalter Authority for quarterly member agency assessments covering administrative, project, fixed, and variable costs; 2) a \$461 thousand payment to Big Ben Engineering Inc. for the Jefferson Avenue interconnection project; and 3) a \$342 thousand payment to Jurupa Community Service District for shared costs related to the WRCRWA regional pump station.

**REASON FOR ACTION:**

Reporting monthly cash disbursements provides information and transparency to the Board of Directors and the public regarding Western Water's expenditures.

**SOLUTION:**

Receive and file the 2025 Cash Disbursement Report.

**STRATEGIC PRIORITIES REFERENCE:**

This action aligns with Western Water's Strategic Priority of Financial Stewardship.

**LEGAL COUNSEL REVIEW:**

Staff has determined that this item does not require legal review.

**Agenda Item: 6C**  
**Date: March 4, 2026**

**TO: THE BOARD OF DIRECTORS**

Laura Roughton, President

**FROM:** Craig D. Miller, P.E., General Manager

**ADOPT A RESOLUTION AUTHORIZING WESTERN MUNICIPAL WATER DISTRICT TO JOIN THE CALIFORNIA FIXED INCOME TRUST MEMBERSHIP AND TO INVEST IN SHARES OF THE TRUST AND IN INDIVIDUAL ACCOUNTS**

**RECOMMENDATION:**

The Finance Committee and Staff recommend the Board of Directors:

1. Adopt Resolution 3371 authorizing Western Municipal Water District to join with other public agencies as a member of the California Fixed Income Trust and invest in shares of the trust and in individual portfolios. As a member, Western Municipal Water District will be an official member of the California Fixed Income Trust, a joint exercise of powers entity, with voting rights.

**EXECUTIVE SUMMARY:**

The California Fixed Income Trust is recommended as a short-term investment option for Western Municipal Water District to diversify beyond the State of California's Local Agency Investment Fund and the California Asset Management Program. The California Fixed Income Trust is an allowable investment option under the Board-approved investment policy, providing competitive interest rates and investing in government securities and highly rated, short-term commercial debt. Participating in the California Fixed Income Trust as a member will allow for more diversity in the short-term investment

portfolio while also staying within the constraints of California Government Code and seeking to continue to protect principal, meet liquidity needs, and enhance investment earnings over time. As a member, Western Municipal Water District will have voting rights and potential representation on the California Fixed Income Trust's Board of Trustees, enhancing governance oversight.

**BUDGET IMPACT:**

As with all money market funds, local government investment pools like California's Local Agency Investment Fund and the California Asset Management Program, all expenses of the trust are deducted from the pool's yield. The California Fixed Income Trust's expense ratio is currently at a below market level of six basis points or 0.06%, which reflects a fee waiver from its investment advisor. As the California Fixed Income Trust was just recently formed, the investment advisor is waiving most of its advisory fees to help start the pool at a competitive interest rate. It is expected that the investment advisor will increase its contracted fee gradually to market levels but continue to achieve a competitive yield against other options. Since the expenses are deducted from the interest percentage, there are no out-of-pocket expenses for money invested in the California Fixed Income Trust.

**DETAIL:**

Western Municipal Water District (Western Water) historically used California's Local Agency Investment Fund (LAIF) for short-term investment of its cash as it provides safety and liquidity at generally higher earnings rates than traditional bank accounts. In 2025, Western Water added the California Asset Management Program (CAMP) to diversify and obtain higher yields during certain interest rate environments that favor higher rates on the shortest dated fixed income securities, usually under 90 days, which is advantageous in rising rate environments. In contrast, LAIF typically invests with a strategy around a weighted average maturity of 250 days, favoring slightly longer dated securities and provides higher rates during a falling interest rate environment. However, LAIF does not provide Western Water with any direct access to staff managing the investment of the funds or in its governance, as it is fully managed by the State of California Treasurer's office.

Adding the California Fixed Income Trust (CalFIT) to Western Water's investment strategy is recommended as an additional short-term investment option to provide additional diversification of short-term cash balances. Diversifying options is beneficial as Western Water can have substantial cash balances at certain times of the year ranging between \$30 and \$50 million after large property tax receipts or in anticipation of major

**Agenda Item: 6C**

funding needs like capital projects or large water purchases. As CalFIT is very similar in structure and strategy to CAMP, adding it as an option would allow Western Water staff to reduce risk by splitting short-term cash balances between CalFIT and CAMP.

CalFIT was formed in 2025 and is governed by an appointed Board of Trustees which is a joint powers authority under California Government Code Section 6509.7. CalFIT was created by California public agencies, offers the Stable Value Pool, and is eligible for public agency investments pursuant to California Government Code Section 53601(p). The Stable Value Pool is an investment solution for local governments' most liquid reserves and invests in high-quality, short-term securities designed to meet the objectives of safety, liquidity, and return. This investment is an allowable option within Western Water's current investment policy, similar to CAMP and LAIF.

CalFIT is overseen by a Board of Trustees composed entirely of finance officials from California public agencies, ensuring the organization remains accountable solely to its public agency shareholders. The Board currently consists of four members; However, it is expected that the CalFIT Board will expand due to additional membership, which may create an opportunity for Western Water to appoint a staff member to serve as a trustee. CalFIT's Investment Adviser, Chandler Asset Management, who also manages Western Water's main investment portfolio, provides day-to-day portfolio management and program administrative services. Although CalFIT itself was recently formed, Chandler Asset Management was founded in 1988 and manages over \$45 billion in assets, with a particular background and focus on local government and Southern California water district clients. Having Chandler Asset Management as the investment advisor provides Western Water staff with direct access to the personnel managing the funds and information about investment decision making and performance. CalFIT's service providers also include U.S. Bank (Custodian), CliftonLarsonAllen LLP (Auditor), and Gibbons & Conley (Legal Counsel).

CalFIT will strengthen and diversify Western Water's short-term investment portfolio in accordance with the safety, liquidity, and return hierarchy. Key benefits of CalFIT include:

- **Stable Net Asset Value (NAV):** The pool is designed to maintain a stable NAV of \$1.00 per share, which is critical for principal preservation.
- **High Rating:** CalFIT is rated AAA by S&P Global, reflecting the highest degree of safety for principal invested.
- **Liquidity:** The pool offers same-day liquidity for redemptions submitted by 12:00 p.m. Pacific Time.

**Western Water | Regular Board Meeting**  
**March 4, 2026**  
**Agenda Item: 6C**

- Flexibility: Unlimited investments and withdrawals.
- Competitive yields: 7-day and 30-day yield at 3.76% and 3.78%, respectively, as of February 9th, 2026. In comparison, CAMP has a similar yield as of February 6th, 2026, of 3.85%.
- Financial Structure: Dividends accrue daily and are paid monthly, with no transaction fees, ensuring efficient cash management.
- Local Focus: Formed in California, by California government agencies and managed by a California-based investment firm, Chandler Asset Management, Inc.

**REASON FOR ACTION:**

Participating in CalFIT will allow for more diversity in Western Water's short-term investment portfolio, while also staying within the constraints of California Government Code and seeking to continue to protect principal, meet liquidity needs, and enhance investment earnings over time.

**SOLUTION:**

Adopt Resolution 3371.

**STRATEGIC PRIORITIES REFERENCE:**

This action aligns with Western Water's strategic priority of Financial Stewardship.

**LEGAL COUNSEL REVIEW:**

The attached resolution is a standard resolution provided by the Trust for all new entrants.

It is specifically intended that all provisions related to the Custodian set forth herein be memorialized in a contract to be entered into between CalFIT and the Custodian (the “**Custody Agreement**”) and that this Agreement shall not be construed to create any third-party beneficiary rights under this Agreement in any party fulfilling the role of the Custodian. As such, the terms of this Agreement are not binding on the Custodian and the Custodian’s rights, duties and obligations are solely as defined in the Custody Agreement.

### 7.2 SUCCESSORS

The Custodian shall use its best efforts to ensure that the interests of CalFIT in the Investment Property is clearly indicated on the records of any sub-custodian and the Custodian shall use its best efforts to ensure that the interests of CalFIT in the Investment Property is not diminished or adversely affected because of the Custodian's use of a sub-custodian.
- b) No Investment Funds or Investment Property, other than cash, received or held by the Custodian pursuant to the Custody Agreement shall be accounted for in any manner that might cause such Investment Funds or Investment Property to become assets or liabilities of the Custodian.

### 7.5 POWERS

The Custodian shall perform the following services:

- a) open and maintain such custody accounts as CalFIT directs through the Administrator and accept for safekeeping and for credit to the applicable Account, in accordance with the terms of the Custody Agreement, all securities representing the investment of Investment Funds pursuant to Section 2.4 hereof, and the income or earnings derived therefrom.

## **8 ARTICLE – INTERESTS OF PARTICIPANTS**

---

### **8.1 GENERAL**

CalFIT, in its discretion, may authorize the division of the Investment Property into one or more Pools as provided in Section 6.4 hereof. The beneficial interests of the Participants hereunder in a Pool and the earnings thereon shall be divided into Shares. Shares shall be used as units to measure the proportionate allocation to the respective Participants of the beneficial interests of a Pool. As required by Section 6509.7 of the Act, each Share shall represent an equal proportionate interest in the Investment Property within a Pool. The number of Shares that may be used to measure and represent the proportionate allocation of beneficial interests among the Participants in a Pool is unlimited. All Shares in a Pool shall be of one class representing equal distribution, liquidation, and other rights. The beneficial interests measured by the Shares shall not entitle a Participant to preference, preemptive, appraisal, conversion, or exchange rights of any kind with respect to CalFIT Investment Program or the Investment Property held in the applicable Pool. Title to the Investment Property held in the applicable Pool of every description is vested in CalFIT. The Participants shall have no interest in the Investment Property held in the applicable Pool other than the beneficial interests conferred hereby and measured by their Shares, and they shall have no right to call for any partition or division of any property, profits, rights, or interests of CalFIT.

### **8.2 ALLOCATION OF SHARES**

- a) In its discretion, CalFIT may from time to time allocate Shares in addition to the then allocated Shares to such Participant for such amount and such type of consideration (including without limitation income from the investment of Investment Property held in the applicable Pool) at such time(s) (including without limitation each Business Day in accordance with the maintenance of a constant net asset value per Shares as set forth in this Agreement for constant net asset value Pools), and on such terms as CalFIT may deem in accordance with the Participant's pro rata beneficial interests. In connection with any allocation of Shares, CalFIT may allocate fractional

Shares. From time to time, CalFIT may adjust the total number of Shares allocated without thereby changing the proportionate beneficial interests in the Investment Property held in the applicable Pool. Reductions or increases in the number of allocated Shares may be made in order to maintain a constant net asset value per Share as set forth in Section 10.1 hereof for constant net asset value Pools. Shares shall be allocated and redeemed as one hundredths (1/100ths) of a Share or any multiple thereof.

- b) Shares may be allocated only to a Participant in accordance with this Agreement. Any Participant may establish more than one Account within the CalFIT Investment Program or any Pool thereof for such Participant's convenience.

### **8.3 EVIDENCE OF SHARE ALLOCATION**

Evidence of Shares allocation shall be reflected in the records of CalFIT, and CalFIT shall not be required to issue certificates as evidence of Shares allocation.

### **8.4 REDEMPTION TO MAINTAIN CONSTANT NET ASSET VALUE FOR CONSTANT NET ASSET VALUE POOLS**

The Shares shall be subject to redemption pursuant to the procedure for reduction of outstanding Shares in order to maintain the constant net asset value per Shares for constant net asset value Pools unless provided otherwise in the Information Statement for the applicable Pool.

### **8.5 REDEMPTIONS**

Payments by CalFIT to Participants, and the reduction of Shares resulting therefrom, are referred to in this Agreement as redemptions for convenience. Any and all allocated Shares may be redeemed at the option of the Participant upon and subject to the terms and conditions provided in this Agreement and any applicable Investment Policy and Information Statement for such Pool. The procedures for effecting redemption shall be prescribed by CalFIT provided, however, that such procedures shall not be structured so as to substantially and materially restrict the ability of the Participants to withdraw funds from the CalFIT Investment Program.

### **8.6 SUSPENSION OF REDEMPTION; POSTPONEMENT OF PAYMENT**

- a) Each Participant, by its investment in any Pool, agrees that CalFIT may temporarily suspend the right of redemption or postpone the date of payment for redeemed Shares for the whole or any part of any period:
  - i. During which trading in securities generally on the New York Stock Exchange or the American Stock Exchange or over-the-counter market shall have been suspended or minimum prices or maximum daily charges shall have been established on such exchange or market;
  - ii. If a general banking moratorium shall have been declared by Federal, state, or the State of New York or State of California authorities or during a suspension of payments by banks in the State of California;
  - iii. During which there shall have occurred any state of war or national emergency; or
  - iv. During which any financial emergency or other crisis the effect of which on the financial markets of the United States is such as to make it impracticable (a) to dispose of the

Investment Property because of the substantial losses that might be incurred or to determine the Investment Property Value in accordance with the Valuation Procedures.

- b) The Administrator shall determine, on behalf of CalFIT, when an event occurs that, under this Section entitles the Custodian to temporarily suspend or postpone a Participant's right to redemption, and shall immediately notify the Custodian and each Participant by facsimile, email, mail, or telephone of such determination. Such a suspension or postponement shall not itself directly alter or affect a Participant's Balance.
- c) Such a suspension or postponement shall take effect at such time as is determined by the Administrator, and thereafter there shall be no right to request a redemption of Shares until the first to occur of: (a) in the case of (i), (ii) or (iv) above, the time at which the Administrator declares the suspension or postponement at an end, such declaration shall occur on the first day on which the period specified in the clause (i), (ii) or (iv) above shall have expired; and (b) in the case of (iii) above, the first day on which the period specified in clause (iii) above is no longer continuing to the extent that redemption is made impractical.
- d) Any Participant that requested a payment prior to any suspension or postponement of payment may withdraw its request at any time prior to the termination of the suspension or postponement.

### **8.7 DEFECTIVE REDEMPTION REQUESTS**

In the event that a Participant shall submit a request for the redemption of a greater number of Shares than are then allocated to such Participant, such request shall not be honored.

## **9 ARTICLE – RECORD OF SHARES**

---

### **9.1 SHARE RECORDS**

CalFIT shall maintain records that shall contain:

- a) The names and addresses of the Participants;
- b) The number of Shares representing their respective beneficial interests in any Account in any Pool hereunder; and
- c) A record of all allocations and redemptions. Such records shall be conclusive as to the identity of the Participants to which Shares are allocated. Only Participants whose allocation of Shares is recorded in CalFIT records shall be entitled to receive distributions with respect to Shares or otherwise to exercise or enjoy the rights and benefits related to the beneficial interests represented by the Shares. No Participant shall be entitled to receive any distribution nor to have notices given to it until it has given its appropriate address to CalFIT.

### **9.2 MAINTENANCE OF RECORDS**

The Administrator, or such other person appointed by the Administrator or CalFIT, shall record the allocations of Shares in each Account in any Pool in the records of CalFIT.

### **9.3 OWNER OF RECORD**

No person becoming entitled to any Shares in consequence of the bankruptcy or insolvency of any Participant or otherwise by operation of law shall be recorded as the Participant to which such Shares are allocated unless such person is otherwise qualified to become a Participant. If not qualified, such person

## Joint Exercise of Powers Agreement

shall present proof of entitlement to CalFIT and if CalFIT, in its sole discretion, deems appropriate then be entitled to the redemption value of the Shares.

### **9.4 TRANSFER OF SHARES**

The beneficial interests measured by the Shares shall not be transferable, in whole or in part, other than to CalFIT itself or another Participant for purposes of redemption. Shares also may be redeemed from one Participant's Account and the proceeds deposited directly into another Participant's Account upon instructions from the Authorized Representative of the respective Participants.

### **9.5 LIMITATION OF RESPONSIBILITY**

CalFIT shall not, nor shall the Participants or any officer, employee or agent of CalFIT, be bound to determine the existence of any trust, express, implied or constructive, or of any charge, pledge, or equity to which any of the Shares or any interest therein are subject or to ascertain or inquire whether any redemption of any such Shares by any Participant or its Authorized Representatives is authorized by such trust, charge, pledge or equity, or to recognize any person as having any interest therein except the Participant recorded as the Participant to which such Shares are allocated. The receipt of moneys by the Participant in whose name any Shares is recorded or by the Authorized Representative or duly authorized agent of such Participant shall be a sufficient discharge for all moneys payable or deliverable in respect of such Shares and from all responsibility to see the proper application thereof.

### **9.6 NOTICES**

Any and all notices to which Participants hereunder may be entitled and any and all communications shall be deemed duly served or given if electronically or mailed, postage prepaid, addressed to Participants of record at the electronic or physical mailing addresses recorded in the records of CalFIT.

---

### **10.1 DETERMINATION OF NET ASSET VALUE, NET INCOME, DISTRIBUTIONS AND ALLOCATIONS**

## **11 ARTICLE – CALFIT INVESTMENT PROGRAM COSTS**

---

### **11.1 EXPENSES**

In consideration of the performance of its obligations hereunder, the Administrator shall receive a fee as set forth in the Administrator Agreement described in Section 5.1 hereof, which fee shall be paid from the earnings on the Accounts. The Administrator's fee shall be an Investment Property Liability. From its fee, the Administrator shall pay the following costs and expenses: the Investment Adviser's fee set forth in the

Except in the case of fraud or willful misconduct, no Member, Participant, Trustee, officer, employee, or agent, as such, of CalFIT who is made a party to any suit or proceeding to enforce any such liability, shall be held to any personal liability. The debts, liabilities and obligations of CalFIT shall not be the debts, liabilities and obligations of any Member, Participant, Trustee, officer, employee or agent of CalFIT, unless otherwise provided in this Agreement provided,

however, that in such case, such debts, liabilities and obligations shall be limited to the value of the Investment Property.

### **13.2 INDEMNIFICATION OF PARTICIPANTS**

CalFIT shall indemnify and hold each Participant harmless from and against all claims and liabilities to which such Participant may become subject by reason of its being or having been a Participant in the CalFIT Investment Program and shall reimburse such Participant for all legal and other expenses reasonably incurred by it in connection with any such claim or liability provided, however, that: (a) such Participant was acting in accordance with all legal and policy requirements and investment objectives applicable to such Participant, including any limitations that the Participant has adopted or is subject to which are more restrictive than state law, (b) such indemnity or reimbursement shall be made from the Investment Property in the applicable Pool in respect of which such claim or liability arose and not from any other Investment Property, and (c) no indemnification shall be made for any Participant's negligence or willful misconduct. The rights accruing to a Participant under this Section 13.2 shall not exclude any other right to which such Participant may be lawfully entitled, nor shall anything herein contained restrict the right of CalFIT to indemnify or reimburse a Participant in any appropriate situation even though not specifically provided herein.

### **13.3 BAD FAITH OF TRUSTEES AND OTHERS**

No Trustee, officer, employee or agent of CalFIT shall be liable to CalFIT, or to any Member, Participant, Trustee, officer, employee or agent thereof for any action or failure to act, except for his or her own bad faith, willful misfeasance, gross negligence or reckless disregard of duty (collectively, "**Bad Faith**").

### **13.4 INDEMNIFICATION OF TRUSTEES AND OTHERS FROM THIRD-PARTY ACTIONS**

### **13.5 INDEMNIFICATION OF TRUSTEES AND OTHERS FOR SUCCESSFUL DEFENSE**

### **13.6 ADVANCE EXPENSES**

Expenses incurred in defending any proceeding may be advanced by CalFIT before the final disposition of the proceeding upon a written undertaking by or on behalf of the Trustee, officer or employee of CalFIT, to repay the amount of the advance if it is ultimately determined that he or she is not entitled to indemnification, together with at least one of the following as a condition to the advance: (i) security for the undertaking; or (ii) the existence of insurance protecting CalFIT against losses arising by reason of any lawful advances; or (iii) a determination by a majority of the Trustees who are not parties to the proceeding ("**Non-Interested Trustees**"), or by independent legal counsel in a written opinion, based on

## Joint Exercise of Powers Agreement

a review of readily available facts, that there is reason to believe that such person ultimately will be found entitled to indemnification.

### 13.7 EXCLUSION AND LIMITATIONS OF INDEMNIFICATION OF TRUSTEES AND OTHERS

Notwithstanding the foregoing, no indemnification or advance shall be made under Sections 13.4 to 13.6 hereof:

- a) **Bad Faith**. For any liability arising by reason of Bad Faith of a Trustee, officer or employee of CalFIT.
- b) **Improper Personal Benefit**. - c) **Otherwise Prohibited**. In any circumstances where it appears that it would be inconsistent with any condition expressly imposed by a court, any provision of this Agreement, or any agreement in effect at the time of accrual of the alleged cause of action asserted in the proceeding in which the expenses were incurred or other amounts were paid which prohibits or otherwise limits indemnification or advance.

### 13.9 REQUIRED APPROVAL

No indemnification or advance shall be made under Sections 13.4 to 13.6 hereof unless and until it is determined, by a majority of the Non-Interested Trustees, or by independent legal counsel in a written opinion, based on a review of readily available facts, that indemnification of a Trustee, officer, employee or agent of CalFIT is proper in the circumstances because such person has met the applicable standard of conduct set forth in Sections 13.4 to 13.6 hereof, as applicable, and such indemnification is not excluded by reason of Section 13.7 hereof.

### 13.10 FIDUCIARIES OF EMPLOYEE BENEFIT PLAN

This Article XIII does not provide indemnification or release from liability with respect to any proceeding against any trustee, Investment Adviser or other fiduciary of an employee benefit plan in such person's capacity as such, even though such person may also be a Trustee, officer, employee or agent of CalFIT. No purchaser, lender, transfer agent, record keeper or other person dealing with any Trustee, officer, employee or agent of CalFIT shall be bound to make any inquiry concerning the validity of any transaction purporting to be made by such Trustee, officer, employee or agent or be liable for the application of money or property paid, loaned, or delivered to or on the order of such Trustee, officer, employee or agent. Every obligation, contract, instrument, certificate, Share or other security of CalFIT and undertaking, and every other document executed in connection with CalFIT, shall be conclusively presumed to have been executed or done by the executors thereof only in their capacity as Trustees under this Agreement or in their capacity as officers, employees or agents of CalFIT. Every written obligation, contract, instrument, certificate, Share or other security of CalFIT or undertaking made or issued by any Trustee shall recite that it is executed by such Trustee not individually, but in the capacity as Trustee under this Agreement, and that the obligations of any such instruments are not binding upon any of the Trustees, Founding Members or Participants individually, but bind only CalFIT property, but the omission of such recital shall not operate to bind the Trustees, Founding Members or Participants individually.

### **13.12 RELIANCE ON EXPERTS**

Each Trustee, officer, employee and agent of CalFIT shall, in the performance of his or her duties, be fully protected with regard to any act or any failure to act resulting from reliance in good faith upon the books of account or other records of CalFIT, upon an opinion of counsel, or upon reports made to CalFIT by any of its officers or employees or by the investment adviser, administrator, transfer agent, record keeper, custodian, distributor accountants, appraisers or other experts or consultants selected with reasonable care by the Trustees, officers, employees or agents of CalFIT.

### **13.13 IMMUNITY FROM LIABILITY**

All of the privileges and immunities from liability, all exemptions from laws, ordinances and rules, and all pension, relief, disability, workmen's compensation, and other benefits which apply to the activity of the trustees, officers, employees or agents of the Members when performing their functions within the territorial limits of their respective Public Agencies, shall apply to them to the same degree and extent while engaged in the performance of any of their functions and duties associated with CalFIT.

### **13.14 FURTHER RESTRICTION OF DUTIES AND LIABILITIES**

Without limiting the foregoing provisions of this Article 13, the Trustees, officers, employees and Members of CalFIT shall in no event have any greater duties or liabilities than those imposed by applicable laws as shall be in effect from time to time.

## **14 ARTICLE – AMENDMENT AND TERMINATION**

---

  - iii. after paying or adequately providing for the payment of all Investment Property Liabilities and upon receipt of such releases, indemnities, and refunding agreements as each of CalFIT, Administrator, and Custodian deem necessary for their protection, CalFIT shall take all necessary actions to cause the distribution of the remaining Investment Property, in cash or in kind or partly in each, among the Participants according to their respective proportionate Balances.
- c) Upon termination of this Agreement and distribution to the Participants as herein provided, CalFIT shall direct the Administrator to execute and lodge among the records maintained in connection with this Agreement an instrument in writing setting forth the fact of such termination, and CalFIT and Members shall thereupon be discharged from all further liabilities and duties hereunder, and the rights and benefits of all Participants hereunder shall cease and be canceled and discharged.

CalFIT follows Financial Accounting Standards Board Accounting Standards Codification (ASC) 820 Fair Value Measurement and Disclosure for financial reporting purposes. ASC 820 defines fair value, establishes a single framework for measuring fair value, and requires disclosures about fair value measurement.

## 2 CALFIT STABLE VALUE POOL SUMMARY

---

The California Fixed Income Trust, doing business as CalFIT, is a California joint powers authority created pursuant to Title 1, Division 7, Chapter 5 of the California Government Code (commencing with Section 6500), known as the Joint Exercise of Powers Act (Act) and the JPA Agreement referenced below.

The Act provides that two or more public agencies (as defined herein, Public Agencies) that have the authority to invest funds in their treasuries may, by agreement, jointly exercise that common power and create a joint powers authority separate from such Public Agencies to exercise such common power and to act as administrator of the agreement. Under this authority, CalFIT was created pursuant to a Joint Exercise of Powers Agreement (JPA Agreement) dated as of July 22, 2025, between the Founding Members (as defined in the JPA Agreement).

The Act authorizes a joint powers authority, such as CalFIT, to issue shares of beneficial interest in authorized investments to participating Public Agencies (collectively referred to herein, as Participants and individually, as a Participant). See “**Eligible Participants.**” The JPA Agreement sets forth the terms of the investment program known as the CalFIT Investment Program, including the establishment of Pools in which Participants purchase shares of beneficial interest issued by CalFIT in authorized investments that are owned by CalFIT. The Stable Value Pool is the initial Pool established by CalFIT.

The purpose of CalFIT is to consolidate investment activities of the Participants and thereby reduce duplication, take advantage of economies of scale, and perform governmental functions more efficiently through the CalFIT Investment Program.

As a joint powers authority, CalFIT provides a professionally managed pooled investment program for Participants. See “**Investment Adviser & Administrator.**” Pursuant to the JPA Agreement, CalFIT is governed by a Board. See “**Board.**”

The Shares in the Stable Value Pool have not been, and are not required to be, registered under any federal or state securities law. CalFIT has not been, and is not required to be, registered under the Investment Company Act of 1940, as amended. Accordingly, CalFIT and its Stable Value Pool are not subject to the provisions of that Act, including the protective rules relating to registered money market funds and other types of mutual funds.

### 3 STABLE VALUE POOL GENERAL OBJECTIVES

---

CalFIT provides a professionally managed pooled investment program for Participants. The general objective of the Stable Value Pool is to generate additional investment income for the Participants while maintaining safety and liquidity. The Stable Value Pool is managed by the Board to comply with the requirements of California law.

As described below, the investment objectives of the Stable Value Pool are to preserve principal, provide daily liquidity, earn a competitive rate of return, comply with GASB 79, and strive to maintain a stable Net Asset Value (“NAV”) of \$1.00. The Stable Value Pool accrues net income daily and pays net income on a pro rata basis monthly.

CalFIT has established that the Stable Value Pool will have a maximum dollar-weighted average maturity (“WAM”) of 60 days and a maximum weighted average life (“WAL”) of 120 days. Ten percent of the Stable Value Pool’s total assets must be liquid daily, and thirty percent must be liquid weekly at the time of the most recent security purchase per GASB 79. The Investment Policy created by CalFIT for the Stable Value Pool establishes the investment objectives, policies and restrictions that are designed to facilitate the achievement of these objectives. The full Investment Policy is included below.

The Investment Adviser for the Stable Value Pool will seek to maintain a ‘AAAm’ rating from S&P Global Ratings or the equivalent on the Stable Value Pool. According to S&P Global Ratings, a fund rated ‘AAAm’ demonstrates extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit risk. ‘AAAm’ is the highest principal stability fund rating assigned by S&P Global Ratings.<sup>1</sup>

The investment objectives of the Stable Value Pool in order of priority are:

- **Safety:** Safety of principal is the foremost objective of the investment program. The Stable Value Pool is managed to emphasize the preservation of principal while maintaining a stable NAV of \$1.00.
- **Liquidity:** The Stable Value Pool is managed to provide daily liquidity to its Participants. See above for description of the maximum WAM and WAL for investments in the Stable Value Pool.
- **Competitive Returns:** The Stable Value Pool is managed to generate competitive returns taking into account the investment risk constraints for safety and liquidity needs.

## 7 SHARES; INTERESTS OF PARTICIPANTS

---

The JPA Agreement provides that the beneficial interests of the Participants in the assets of the Stable Value Pool and the earnings thereon are divided into "Shares." "Shares" means the unit used to denominate and measure the respective pro rata beneficial interests of the Participants in a Pool within the CalFIT Investment Program, including the Stable Value Pool. As required by Section 6509.7 of the Act, each Share shall represent an equal proportionate interest in the Investment Property within a Pool, including the Stable Value Pool. The JPA Agreement provides that the number of Shares that may be used to measure and represent the proportionate allocation of beneficial interests among the Participants in a Pool, including the Stable Value Pool, is unlimited. All Shares in a Pool, including the Stable Value Pool, shall be of one class representing equal distribution and liquidation, and other rights. The beneficial interests measured by the Shares shall not entitle a Participant to preference, preemptive, appraisal, conversion, or exchange rights of any kind with respect to the CalFIT Investment Program or the Investment Property held in the applicable Pool, including the Stable Value Pool. Title to the Investment Property held in the applicable Pool, including the Stable Value Pool, of every description is vested in CalFIT. The Participants shall have no interest in the Investment Property held in the applicable Pool, including the Stable Value Pool, other than the beneficial interests conferred hereby and measured by their Shares, and they shall have no right to call for any partition or division of any property, profits, rights, or interests of CalFIT.

In its discretion, CalFIT may from time to time allocate Shares in addition to the then allocated Shares to such Participant for such amount and such type of consideration (including without limitation income from the investment of Investment Property held in the applicable Pool, including the Stable Value Pool) at such time(s) (including without limitation each Business Day in accordance with the maintenance of a constant net asset value per Shares as set forth in the JPA Agreement for constant net asset value Pools, such as the

Stable Value Pool), and on such terms as CalFIT may deem best. In connection with any allocation of Shares, CalFIT may allocate fractional Shares. From time to time, CalFIT may adjust the total number of Shares allocated without thereby changing the proportionate beneficial interests in the Investment Property held in the applicable Pool, including the Stable Value Pool. Reductions or increases in the number of allocated Shares may be made in order to maintain a constant net asset value per Share for constant net asset value Pools, such as the Stable Value Pool. Shares shall be allocated and redeemed as one hundredths (1/100ths) of a Share or any multiple thereof.

### **8 INVESTMENT RISKS**

---

Participants should specifically consider the following risks before deciding to purchase Shares of the Stable Value Pool. The following summary does not purport to be comprehensive or definitive of all risk factors.

#### **8.1 INTEREST RATE RISKS**

The prices of the fixed-income securities in the Stable Value Pool will rise and fall in response to changes in the interest rates paid by similar securities. Generally, when interest rates rise, prices of fixed-income securities fall. However, market factors, such as demand for particular fixed-income securities, may cause the price of certain fixed-income securities to fall while the price of other securities rise or remain unchanged. Interest rate changes have a greater effect on the price of fixed-income securities with longer maturities. The Investment Adviser will seek to manage this risk by purchasing short-term securities.

#### **8.2 CREDIT RISKS**

Credit risk is the possibility that an issuer of a fixed-income security held in the Stable Value Pool will default on the security by failing to pay interest or principal when due. If an issuer defaults, Participants in the Stable Value Pool will lose money. The Investment Adviser will seek to manage this risk by purchasing high-quality securities as determined by one or more Nationally Recognized Statistical Ratings Organizations and/or the Investment Adviser's credit research team. The Investment Policy for the Stable Value Pool contains a description of the minimum credit quality for each category of eligible investment in the Stable Value Pool.

#### **8.3 STABLE NET ASSET VALUE RISKS**

Although the Stable Value Pool is managed to maintain a stable NAV of \$1.00 per Share, there is no guarantee that it will be able to do so.

#### **8.4 INVESTMENT NOT INSURED OR GUARANTEED**

An investment in the Stable Value Pool is neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

---

Subject to the general supervision of the Board, the Investment Adviser is responsible for placing the orders for the purchase and sale of securities within the Stable Value Pool, referred to herein as “portfolio transactions”. The portfolio transactions within the CalFIT Investment Program, including the Stable Value Pool, occur only with broker-dealers acting as principals except for commercial paper transactions that may be placed directly with the issuers. Although CalFIT does not ordinarily seek but nonetheless may make profits through short-term trading, the Investment Adviser may, on behalf of CalFIT, dispose of any portfolio investment prior to its maturity if such disposition is advisable. However, since brokerage commissions are not typically paid on the types of investments in which the Stable Value Pool is likely to invest, any turnover resulting from such investments should not adversely affect the NAV of the Stable Value Pool.

The Investment Adviser seeks to obtain the best net price and the most favorable execution of portfolio transactions. Portfolio transactions will not occur between the Investment Adviser and Administrator, the Custodian, any Trustee, or any affiliate, officer, director, employee, or agent of any of them.

### **17 VALUATION OF STABLE VALUE POOL SHARES**

---

The Administrator determines the NAV of the Shares of the Stable Value Pool at least daily using the amortized cost method of valuation. This method involves valuing each investment at cost on the date of purchase and assuming a constant amortization to maturity of any discount or premium. Amortized cost valuation provides certainty in valuation but may result in valuations that are higher or lower than the market price of a particular portfolio security. As a result, the Stable Value Pool has implemented a NAV Monitoring Policy which requires the portfolio to be additionally priced on a mark-to-market basis at least weekly using a third-party pricing service. In the event that the net asset value based on market prices falls

outside certain tolerance levels (\$0.9950 and \$1.005), the Stable Value Pool has implemented procedures for certain additional actions or disclosures.

The NAV per Share of the Stable Value Pool is computed by dividing the total value of the securities and other assets of the Stable Value Pool, less any liabilities, by the total outstanding Shares of the Stable Value Pool. Expenses and fees of CalFIT accrue daily and are included within liabilities for the NAV calculation.

The result of this calculation is a share value rounded to the nearest penny. Accordingly, the price at which Shares of the Stable Value Pool are sold and redeemed will not reflect unrealized gains or losses on securities within the Stable Value Pool that amount to less than \$.005 per Share. The Administrator will endeavor to minimize the amount of such gains or losses. However, if unrealized gains or losses on securities within the Stable Value Pool should exceed \$.005 per Share, the Stable Value Pool's NAV per Share will change from \$1.00 or be maintained at \$1.00 per Share by retention of earnings or the reduction on a pro rata basis of each Participant's Shares in the Stable Value Pool in the event of losses or by a pro rata distribution to each Participant in the event of gains.

While it is a fundamental objective of the Stable Value Pool to maintain a NAV of \$1.00 per Share, there can be no guarantee that the NAV will not deviate from \$1.00 per Share. The NAV per Share of the Stable Value Pool may be affected by general changes in interest rates resulting in increases or decreases in the value of the securities in the Stable Value Pool. The fair market value of the Stable Value Pool's securities will vary inversely to changes in prevailing interest rates. If a security is held to maturity, no loss or gain is normally realized as a result of these fluctuations.

### **17.1 COMPUTATION OF YIELDS**

A daily and seven-day average yield for the Stable Value Pool are calculated by the Administrator. To obtain the daily yield, a daily income distribution per share factor is first calculated. That factor is the net income for that day divided by the number of settled shares outstanding. The factor is then multiplied by 365 (366 in a leap year) to produce the daily yield. The seven-day average yield is obtained by averaging the daily yield for seven identified, consecutive days. From time-to-time, the Administrator may also quote the yield for the Stable Value Pool on other basis for the information of the Participants.

Participants should note that the yields quoted should not be considered a representation of the future yield of the Stable Value Pool since the yield is not fixed. Actual yields for the Stable Value Pool will depend not only on the type, quality, and maturities of the investments held by the Stable Value Pool and the changes in interest rates for such investments but also on changes in the Stable Value Pool's expenses during the period.

Yield information may be useful in reviewing the performance of the Stable Value Pool and for providing a basis for comparison with other investment alternatives.

## **18 INCOME ALLOCATIONS**

---

All net income of the Stable Value Pool is determined as of the close of business each day (and at such other times as the Board may determine) and is credited pro rata to each Participant's Account within the Stable Value Pool at month-end. The Stable Value Pool accrues net income on a daily basis and pays interest income on a monthly basis.

Net income that has thus accrued to the Participants is converted as of the close of business at month-end into additional Shares that are thereafter held in each Participant's account. Reinvested net income is converted into full and fractional shares at the rate of one share for each one dollar credited. Net income for the Stable Value Pool consists of (1) all accrued interest income on assets of the Stable Value Pool plus (2) accretion of discount, less (3) amortization of premium and less (4) accrued expenses.

### 19 RETAINED RESERVES

---

Pursuant to the JPA Agreement, the Investment Adviser may retain from earnings and profits in the CalFIT Investment Program, including the Stable Value Pool, amounts deemed necessary to pay the debts and expenses of CalFIT, as well as to meet other obligations of CalFIT. The Investment Adviser possesses the power to establish from earnings and profits such reasonable reserves as they believe may be necessary or desirable. Realized capital gains or losses shall be distributed in a timely and equitable manner as determined by the Investment Adviser. More information about retained reserves is available in the JPA Agreement, including the detailed accounting that the Investment Adviser provides to the Board on a quarterly basis on amounts deemed necessary or desirable by the Investment Adviser for retained reserves.

### 20 CALFIT EXPENSES

---

Pursuant to the JPA Agreement, Chandler, as Administrator, for the CalFIT Investment Program, including the Stable Value Pool, shall pay Pool expenses as described below in "**Expense Payments**". The Pool Expenses shall be an Investment Property liability. On behalf of CalFIT, the Administrator shall pay the following costs and expenses: the Investment Adviser's and Administrator's fee set forth in the Administrator and Investment Adviser Services Agreement (Chandler Agreement), the Custodian's fee set forth in the Custody Agreement, marketing expenses, the cost of valuing the Investment Property, the cost of obtaining a rating or ratings, if any, the cost of other expenses agreed to by Chandler and CalFIT, all Investment Property record-keeping expenses, the cost of preparing monthly and annual reports, the expense of outside auditors required pursuant to the Chandler Agreement, the fees of the counsel to CalFIT, the cost of meetings of the Board, insurance costs and the costs of Participant surveys and mailings and other expenses as approved by the Board. Periodically, Chandler shall provide a detailed accounting of such expenses to the Trustees.

#### 20.1 EXPENSE PAYMENTS

For the performance of its obligations as Administrator in the Chandler Agreement, the Administrator will charge a fee for all Pool expenses from the Investment Property Value (the daily fee). This fee will accrue on a daily basis and be paid monthly in arrears and prorated for any portion of the month in which the Chandler Agreement is in effect. The daily fee shall be calculated as follows: the Investment Property Value is multiplied by the applicable fee rate and is divided by 365 or 366 days in the event of a leap year to equal the daily fee accrual. The Investment Property Value shall be based on the prior day's net assets. For weekend days and holidays, the net assets for the previous business day will be utilized for the calculation of fees. The applicable expense shall be determined by the Administrator monthly on the first business day of each month and shall be at an annual rate not to exceed twenty (20) basis

## Information Statement

points. The Administrator is authorized to debit the applicable monthly expense payment within five (5) business days after the end of such month. All payment records and invoices will be presented at each subsequent meeting of the Board. Fees may be waived or abated at any time, or from time-to-time, at the sole discretion of the Administrator. Any such waived fees may be restored by the written agreement of CalFIT.

### 21 REPORTS TO PARTICIPANTS

---

**Annually** – Audited financial statements of CalFIT will be provided annually. See “**Independent Auditors**” above.

**Monthly** – Within 15 days after the end of each month, the Administrator shall prepare and submit, or make available, to each Participant a statement disclosing any activity and a closing balance, including the number of Shares, in each of its accounts for such month.

**Upon Request** – The Administrator, upon the request of a Participant, shall furnish to the Participant a statement of such Participant’s balance as of the date of such request subject only to account activity on such date.

Source: US Department of Labor

The December Nonfarm Payrolls report showed weaker-than-expected job growth, with payrolls rising by 50,000 compared with the consensus estimate of 70,000. This follows a downwardly revised gain of 56,000 in November. Employment declines were most pronounced in retail trade and construction, while leisure and hospitality posted the strongest gains. Notably, the unemployment rate edged down to 4.4% after increasing to 4.6% in November.

Personal Consumption Expenditures (PCE)

The Consumer Price Index (CPI) showed that inflation remained relatively subdued in December, with headline CPI and core CPI holding at 2.7% and 2.6% respectively year-over-year. Shelter has continued to play a central but gradually moderating role in services inflation. December data keeps inflation close to the prior month's pace and consistent with a trend of easing price pressures. The Personal Consumption Expenditures (PCE) Index for September, released on December 5, showed headline inflation up 0.3% from August and 2.8% year over year. Core PCE rose 0.2% on the month and 2.8% on an annual basis.

Federal Reserve Balance Sheet Assets

Effective Federal Funds Rate

The Federal Reserve lowered its benchmark interest rate by a quarter point to a target range of 3.50% to 3.75% at its December meeting, citing concerns about emerging weakness in the labor market. A few policymakers dissented, arguing that tighter monetary policy may still be warranted to ensure progress on price stability. Beginning December 1, the Fed also halted its balance sheet runoff, announcing that principal and interest payments from its holdings will be reinvested in Treasury securities to maintain ample reserves and support market stability.

US Treasury Note Yields

US Treasury Yield Curve

Source: Bloomberg

At the end of December, the 2-year yield was 77 basis points lower, and the 10-year yield was 40 basis points lower, year-over-year. The spread between the 2-year and 10-year Treasury yield points on the curve increased to +69 basis points at December month-end versus +52 basis points at November month-end. The prior 2-year/10-year yield curve inversion, which spanned from July 2022 to August 2024, was historically long. The average historical spread (since 2005) is about +95 basis points. The spread between the 3-month and 10-year Treasury yield points on the curve was +54 basis points in December versus +21 basis points in November.

## ECONOMIC UPDATE

---

- The near-term economic outlook continues to be distorted by the data delays from the government shutdown. Recently released government data—reflecting conditions from two to three months ago—indicate inflation remains moderately above the Federal Reserve’s target, while labor market conditions have continued to soften. As the flow of economic data normalizes, the Chandler team expects further yield curve steepening as the Federal Reserve moves the policy rate toward a more neutral range. U.S. trade and fiscal policy also remain sources of elevated market uncertainty.
- The Federal Reserve’s December Federal Open Market Committee meeting concluded with the third consecutive 25-basis-point rate cut in 2025, lowering the target range to 3.50%–3.75%. However, policymakers remain divided on the path forward. Four Fed governors project one additional 25-basis-point cut in 2026, another four anticipate no further easing, eight expect multiple cuts, and three call for a potential rate hike. Chair Jerome Powell noted that the Fed is now “well placed to wait and see” how labor market conditions and inflation evolve in the near term.
- The US Treasury yield curve steepened in December, as the 2-year Treasury yield dropped 2 basis points to 3.48%, the 5-year Treasury was up 13 basis points to 3.73%, and the 10-year Treasury yield was 15 basis points higher at 4.17%. The spread between the 2-year and 10-year Treasury yield points on the curve was 17 basis points wider from November at +69 basis points at December month-end. The spread between the 2-year Treasury and 10-year Treasury yield one year ago was +33 basis points. The spread between the 3-month and 10-year Treasury yield points on the curve was +54 basis points in December versus +21 basis points in November.

The December Nonfarm Payrolls report showed weaker-than-expected job growth, with payrolls rising by 50,000 compared with the consensus estimate of 70,000. This follows a downwardly revised gain of 56,000 in November. Employment declines were most pronounced in retail trade and construction, while leisure and hospitality posted the strongest gains. Notably, the unemployment rate edged down to 4.4% after increasing to 4.6% in November.

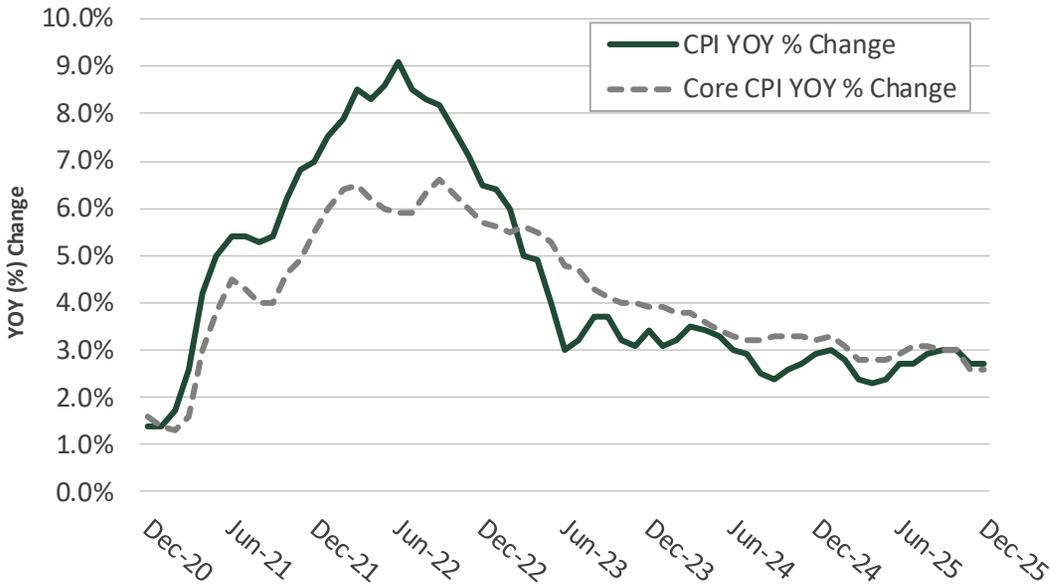

Job Openings

Source: US Department of Labor

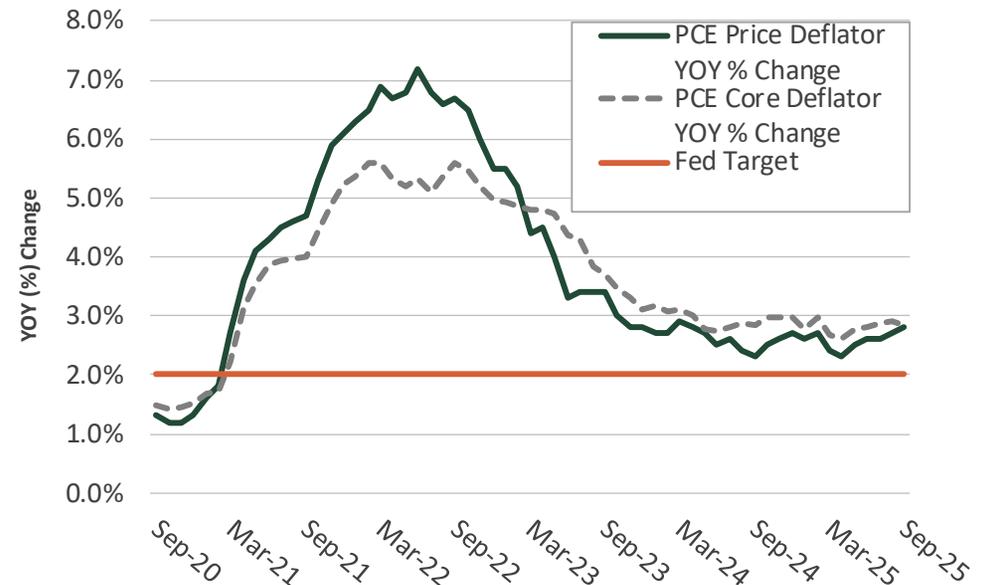

The Labor Department’s Job Openings and Labor Turnover Survey (JOLTS) reported that job openings fell to 7.1 million in November from a downwardly revised 7.4 million in October. The drop in vacancies, alongside slower hiring, suggests the labor market continues to soften, though employers remain cautious about laying off workers. The number of openings now roughly matches the number of unemployed individuals, pointing to a labor market that is approaching equilibrium.

Consumer Price Index (CPI)

Personal Consumption Expenditures (PCE)

Source: US Department of Commerce

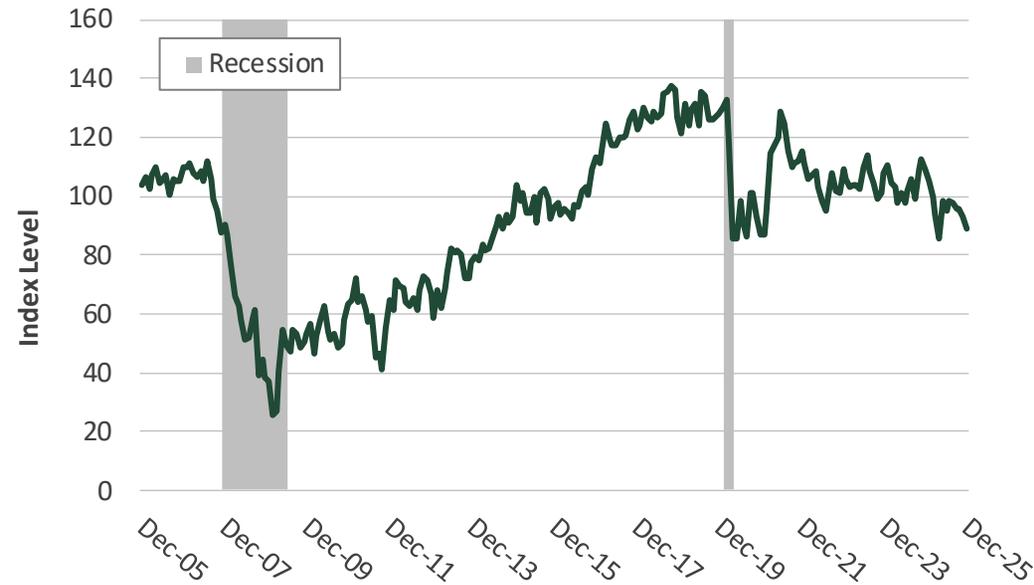

The Consumer Price Index (CPI) showed that inflation remained relatively subdued in December, with headline CPI and core CPI holding at 2.7% and 2.6% respectively year-over-year. Shelter has continued to play a central but gradually moderating role in services inflation. December data keeps inflation close to the prior month's pace and consistent with a trend of easing price pressures. The Personal Consumption Expenditures (PCE) Index for September, released on December 5, showed headline inflation up 0.3% from August and 2.8% year over year. Core PCE rose 0.2% on the month and 2.8% on an annual basis.

Consumer Confidence

November Retail Sales rose 0.6% from October and 3.3% from a year earlier, while the control group measure which feeds into GDP rose a solid 0.4% on the month after an even stronger 0.8% gain in October. This confirms that underlying goods spending excluding the most volatile categories remained resilient into the start of the holiday season. The government shutdown may have weighed on consumer confidence regarding jobs, incomes, and overall financial conditions, both current and in the future. The Conference Board’s Consumer Confidence Index declined to 89.1 in December from an upwardly revised 92.9 in November, marking its fifth consecutive monthly drop. Consumers remained pessimistic about both business conditions and the labor market.

Chicago Fed National Activity Index (CFNAI)

Source: Federal Reserve Bank of Chicago

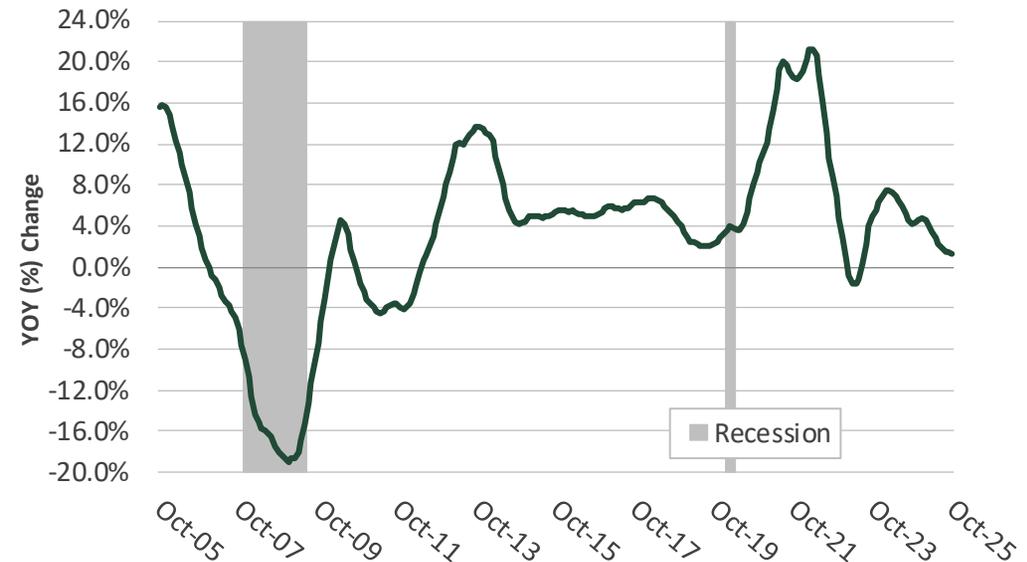

The Conference Board’s Leading Economic Index (LEI) declined 0.3% in September, marking its second consecutive monthly decrease after a revised 0.3% drop in August. On a year-over-year basis, the index fell 3.3%. According to the Conference Board, weakening expectations among consumers and businesses contributed most to the LEI’s overall decline. The index continues to signal slower economic growth through the end of 2025 and into 2026. The Chicago Fed National Activity Index (CFNAI) came in at -0.21 in September, following a downwardly revised -0.31 in August, signaling that U.S. economic activity remained below its historical trend for the sixth consecutive month. The three-month moving average ticked down to -0.21 in September from -0.18 in August, reinforcing signs of ongoing below-trend national growth. Employment-related indicators turned slightly positive, contributing +0.01 in September after a -0.11 result in August.

S&P/Case-Shiller 20 City Composite Home Price Index

Source: S&P

The S&P Cotality Case-Shiller 20-City Composite Home Price Index rose 1.3% year over year in October, slightly down from a 1.4% gain in September and marking the slowest annual increase since mid-2023. Short-term momentum also weakened, with 80 percent of the 20 tracked markets recording month-over-month price declines on a non-seasonally adjusted basis. Housing starts declined in October to an annualized rate of 1.25 million units, down from 1.29 million in September. Existing home sales inched higher in November to a 4.13 million-unit pace, indicating only modest improvement despite some relief in mortgage rates. The Freddie Mac 30-year fixed mortgage rate fell throughout 2025 and averaged 6.18% at the end of December.

Institute of Supply Management (ISM) Surveys

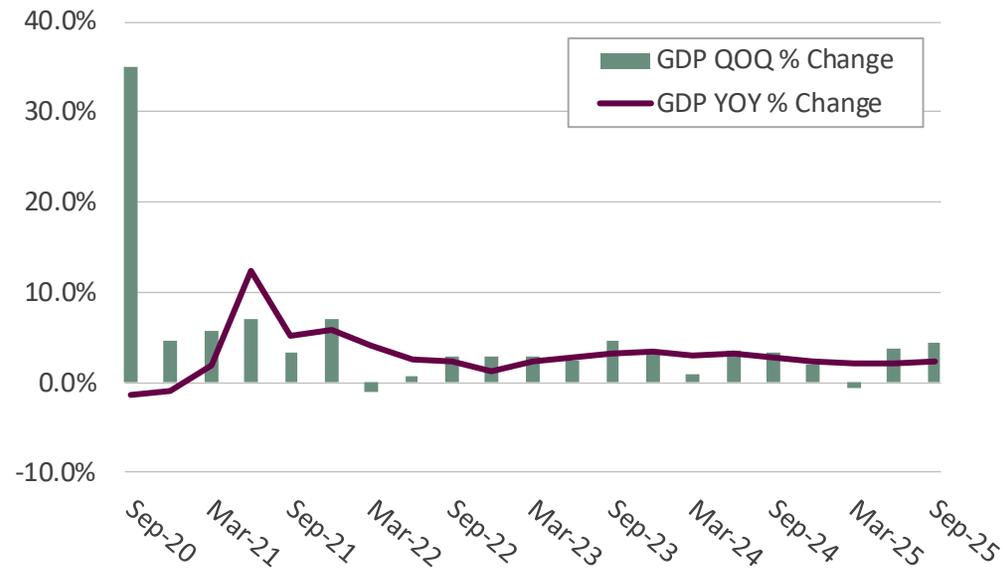

Source: Institute for Supply Management

The Institute for Supply Management’s (ISM) manufacturing index slipped to 47.9 in December, down from 48.2 in November, marking continued weakness across the sector. Manufacturing activity has now been in contraction for 36 of the past 38 months, as readings below 50 indicate contraction and those above 50 signal expansion. The latest decline was driven primarily by pullbacks in the Production and Inventories components. In contrast, the ISM services index remained in expansion territory, rising to 54.4 in December from 52.6 in November. Respondents attributed the improvement to seasonal strength, though many remained cautious about the potential impact of tariffs.

### Gross Domestic Product (GDP)

Source: US Department of Commerce

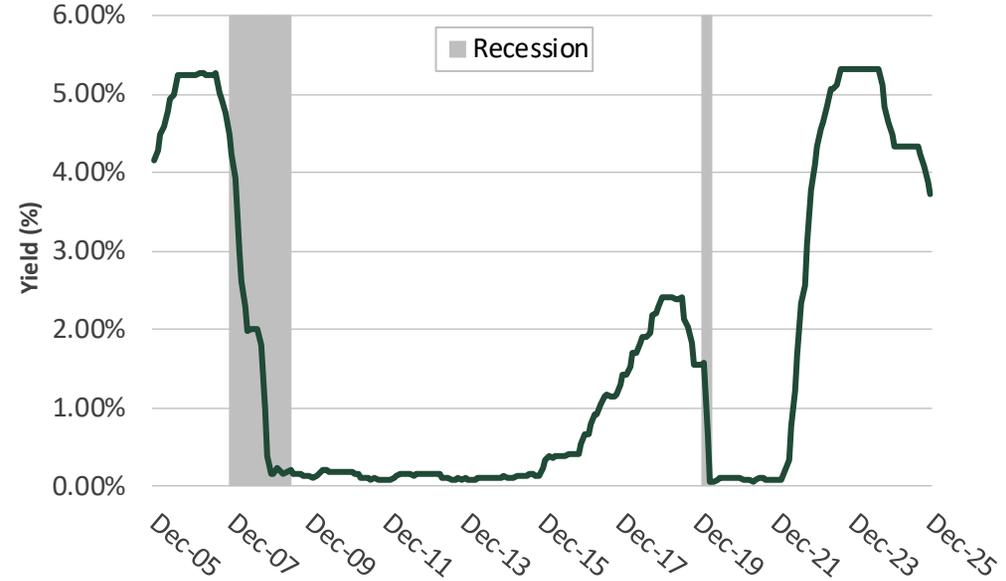

The U.S. inflation adjusted gross domestic product (GDP) report demonstrated continued strength in the third quarter, with the first estimate showing a 4.3% annualized quarter-over-quarter increase, up from 3.8% in the second quarter. Consumer spending accelerated, while exports contributed 1.6 percentage points to growth—both key drivers of the quarter’s performance. The stronger-than-expected result represented the fastest pace of U.S. economic expansion in two years. The consensus projection calls for 1.1% growth in the fourth quarter and 2.0% growth for the full year 2025.

Federal Reserve Balance Sheet Assets

Effective Federal Funds Rate

Source: Bloomberg

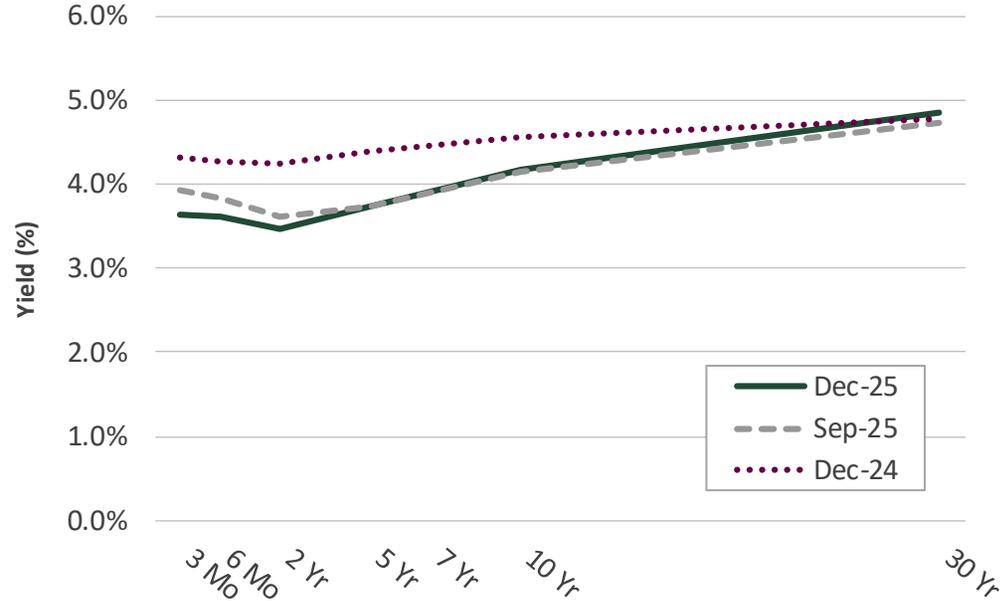

The Federal Reserve lowered its benchmark interest rate by a quarter point to a target range of 3.50% to 3.75% at its December meeting, citing concerns about emerging weakness in the labor market. A few policymakers dissented, arguing that tighter monetary policy may still be warranted to ensure progress on price stability. Beginning December 1, the Fed also halted its balance sheet runoff, announcing that principal and interest payments from its holdings will be reinvested in Treasury securities to maintain ample reserves and support market stability.

US Treasury Note Yields

US Treasury Yield Curve

Source: Bloomberg

At the end of December, the 2-year yield was 77 basis points lower, and the 10-year yield was 40 basis points lower, year-over-year. The spread between the 2-year and 10-year Treasury yield points on the curve increased to +69 basis points at December month-end versus +52 basis points at November month-end. The prior 2-year/10-year yield curve inversion, which spanned from July 2022 to August 2024, was historically long. The average historical spread (since 2005) is about +95 basis points. The spread between the 3-month and 10-year Treasury yield points on the curve was +54 basis points in December versus +21 basis points in November.

Fixed income investments are subject to interest, credit and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

Ratings information have been provided by Moody’s, S&P and Fitch through data feeds we believe to be reliable as of the date of this statement, however we cannot guarantee its accuracy.

Security level ratings for U.S. Agency issued mortgage-backed securities (“MBS”) reflect the issuer rating because the securities themselves are not rated. The issuing U.S. Agency guarantees the full and timely payment of both principal and interest.

## ECONOMIC UPDATE

---

As of December 31, 2025

Market returns in the fourth quarter cooled following the strong third-quarter rally, yet financial markets proved resilient overall, aided by continued support from the Federal Reserve. The U.S. government was shutdown from October 1 to November 12, and as a result all government sourced economic data releases were suspended. Going into the shutdown the labor market had started to show signs of a more significant slowdown, and without weekly jobless claims data and monthly labor reports, the markets had to operate on limited data.

The Federal Reserve (Fed) cut the federal funds rate by 0.25% on October 29 and again on December 10. Additionally, the Federal Reserve ended its quantitative tightening (QT) program on December 1, which stopped the contraction of its balance sheet, and on December 12 they initiated reserve management purchases of Treasury bills, marking the beginning of renewed balance sheet expansion. Each of these actions by the Fed contributed to an easing of financial conditions that supported financial markets through the uncertainty.

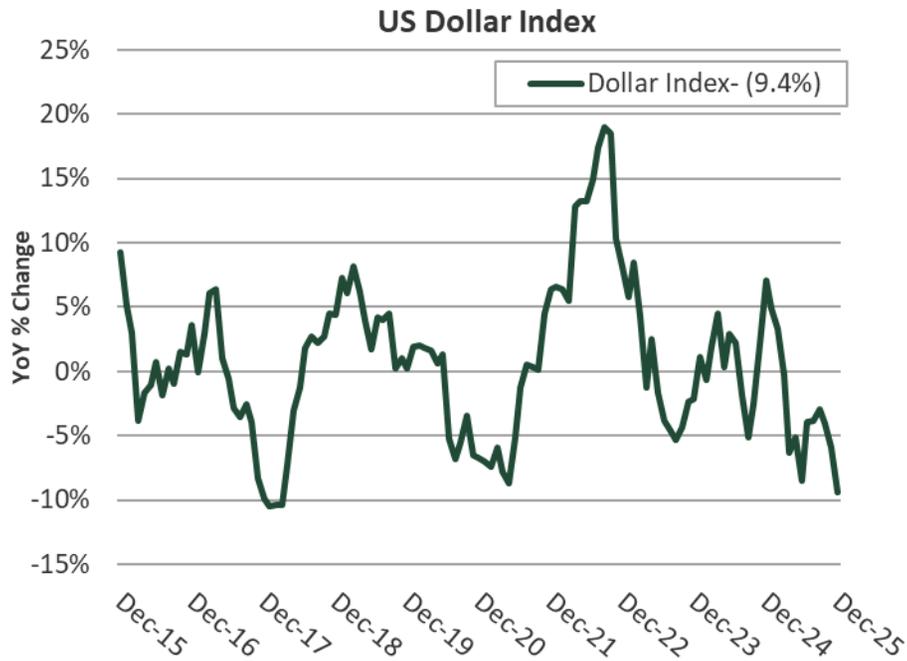

After the December meeting, Chair Powell said the federal funds rate is within the upper bounds of neutral and the committee will pause its rate cuts while it monitors incoming economic data. However, the balance sheet will continue to expand at least through April, which will add liquidity to the market.

There was a marked shift in stock investor sentiment from momentum to value in the fourth quarter. The Russell 1000 Value Index outperformed the Russell 1000 Growth Index by 2.7%, a reversal from the second and third quarters when value underperformed growth by 20.9%. Similarly, the Mag7 stocks including Apple, Microsoft, Alphabet, Amazon, Nvidia, Meta Platforms, and Tesla only outperformed the remaining 493 stocks within the S&P 500 by 1.5% in the fourth quarter versus outperformance of 27.4% during the second and third quarters. Although the S&P 500 remains highly concentrated with the top 10 holdings representing 41% of the index, the shift of sentiment resulted in better breadth, with a larger share of stocks contributing to market gains, and should support stocks going forward.

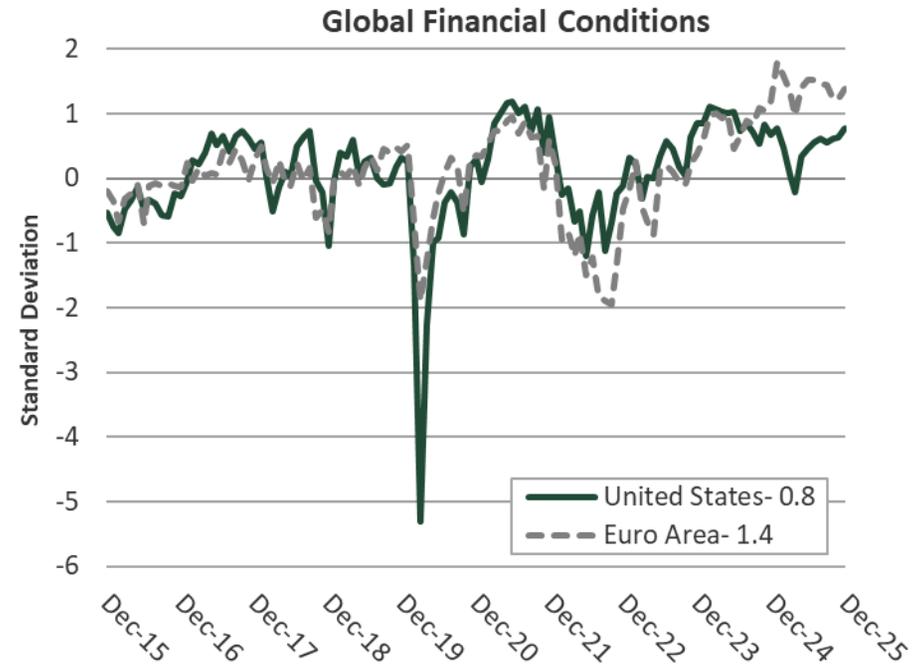

U.S. Treasury yields fell at the front end of the curve reflecting Federal Reserve rate cuts, and the yield curve steepened with the 10-year 2-year spread widening by 0.15% to 0.69%. Credit spreads widened intra-quarter but ended the quarter unchanged. The ICE BofA U.S. Broad Market Index returned 1.0%, while the investment grade and high yield corporate indices returned 0.8% and 1.3%, respectively. International bonds returned 0.5% as yield changes across Europe were mixed and the Japanese 10-year government bond yield rose 0.42% to 2.07%. U.S. REITs gave back some of their strong performance from the third quarter, posting returns of -2.0% despite little change in long term U.S. Treasury yields. Overall, lower but mixed yield changes and unchanged credit spreads produced positive fixed income returns that nonetheless underperformed the third quarter.

The fourth quarter capped a strong year for the Multi Asset Class Strategy. While there are some near-term concerns related to valuations, the longer-term growth outlook should provide strong returns for well-diversified long-term investors. We believe the Multi Asset Class Strategy is well positioned to capture those returns for our investors.

Global growth in Q4 2025 marked a shift from post inflation momentum toward a slower, more normalized pace. Late year data pointed toward moderating expansion. Services outperformed manufacturing, and global Purchasing Managers’ Indexes, or PMIs, remained in expansion. The global composite PMI averaged in the low 50s in November and December, consistent with trend growth. Beneath the surface, U.S. services remained firm, euro area composite activity stayed above 50 despite manufacturing weakness, and China’s official manufacturing PMI moved just above 50 late in the quarter. Trade policy uncertainty weighed on manufacturing activity and capital spending. For context, the International Monetary Fund, or IMF, projects global growth near 3.2% in 2025, easing slightly in 2026, with inflation trending lower but still elevated.

Against this backdrop, central bank conditions in Q4 highlighted policy divergence. The Federal Reserve shifted toward easing as inflation moderated, while the European Central Bank moved more cautiously amid soft euro area growth. Japan continued gradual normalization, and China maintained an accommodative bias. These differences weakened the U.S. dollar in 2025. Measured by the U.S. Dollar Index (DXY), the dollar declined approximately 9.4% in 2025, with most weakness in the first half before stabilizing in Q4. For financial markets, this environment reinforces the importance of global diversification and a long-term view, while remaining flexible as the global landscape recalibrates following broad tariff implementation.

# US UNEMPLOYMENT

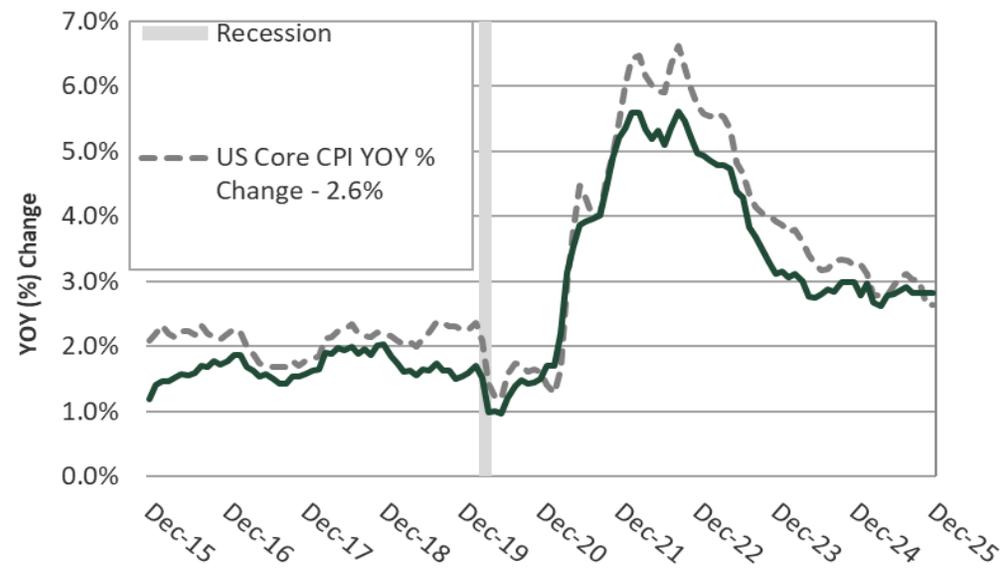

As of December 31, 2025

### US Unemployment Rate

### US Inflation

Q4 2025 marked a clear inflection point for the labor market, as conditions shifted from gradual cooling to more visible signs of slowdown. The unemployment rate rose to 4.6% based on the latest available data, hiring slowed meaningfully, and job gains became more narrowly concentrated in health care and other service sectors. In contrast, manufacturing and government employment weakened, while wage growth eased modestly, pointing to softer labor demand. By comparison, Q3 2025 still reflected residual strength, with unemployment ending the quarter near 4.4%, steadier payroll growth, and firmer wage gains. Quarter to quarter comparisons are less precise in this period, as the October federal government shutdown delayed and disrupted several key labor market releases.

As labor market momentum softened, inflation trends improved during Q4 2025. Despite data disruptions related to the shutdown, available releases and market-based indicators continued to point toward moderation. The Consumer Price Index showed inflation moving closer to the Federal Reserve’s long-term objective, with headline CPI running at 2.7% year over year as of the November reading. The combination of slower growth and clearer disinflation reduced upside policy risks and reinforced a backdrop of easing economic pressures. This environment was consistent with the Federal Reserve’s December rate cut and supported expectations for additional policy easing in 2026.

The U.S. inflation adjusted gross domestic product (GDP) report demonstrated continued strength in the third quarter, with the first estimate showing a 4.3% annualized quarter-over-quarter increase, up from 3.8% in the second quarter. Consumer spending accelerated, while exports contributed 1.6 percentage points to growth—both key drivers of the quarter’s performance. The stronger-than-expected result represented the fastest pace of U.S. economic expansion in two years. The consensus projection calls for 1.8% growth in the fourth quarter and 2.0% growth for the full year 2025.

Global developed stock markets slowed their advance in the fourth quarter and increased 3.3%<sup>1</sup> after climbing 7.6%<sup>1</sup> in the third quarter. International stocks outperformed U.S. stocks even without the support of a weakening U.S. dollar, which moved sideways in the fourth quarter and increased 0.6%<sup>2</sup>.

Developed ex-U.S. markets returned 5.2%<sup>1</sup> led by Canadian stocks up 7.7%<sup>1</sup>, followed by European stocks up 6.1%<sup>1</sup>, while Japanese stocks returned 3.2%<sup>1</sup>. Emerging market stocks returned 4.7%<sup>1</sup>, weighed down by Chinese stocks that declined 7.4%<sup>1</sup>. President Trump met with President Xi in October in South Korea, and both sides agreed to a one year truce. However, the meeting’s outcome may have disappointed market participants who were looking for a more convincing resolution. Stocks in Taiwan increased 10.4%<sup>1</sup>, including Taiwan Semiconductor, which was up 9.1%.

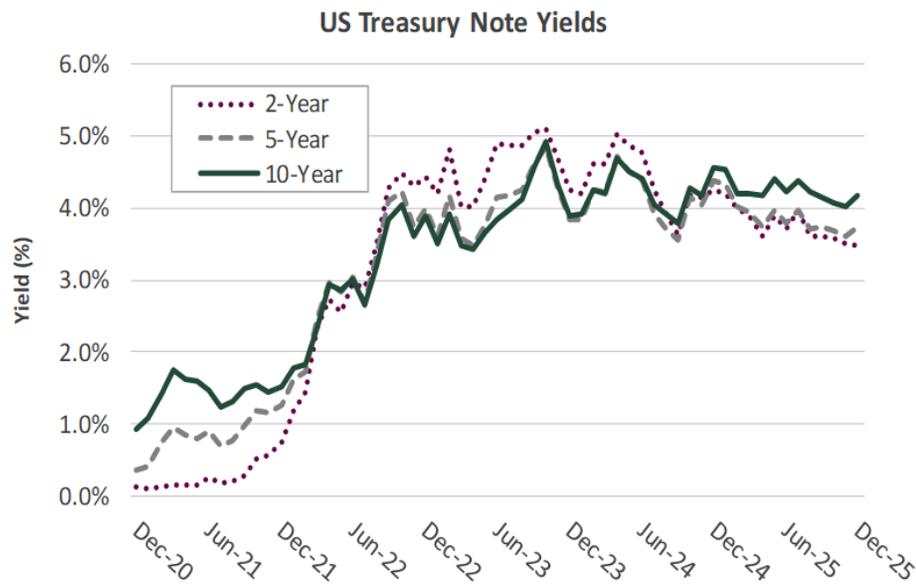

U.S. large cap stocks returned 2.7%<sup>3</sup>, led by the Health Care sector up 11.7%<sup>3</sup>. Within Health Care, the top contributors were Eli Lilly up 41.1%, Johnson & Johnson up 12.3%, and Merck up 26.5%. Mag 7 stocks had mixed returns as the market shifted its focus to the outlook for growth of individual companies rather than the group. Alphabet returned 28.8%, followed by Apple up 6.9% and Amazon up 5.1%, while Meta and Microsoft declined 10.0% and 6.5%, respectively. Breadth within the S&P 500 finished the quarter healthy with 56% of stocks above their 50 day moving averages and the S&P 500 Equal Weight Index at the top of its twelve-month range. Mid and small cap stocks underperformed with returns of 1.6%<sup>3</sup> and 1.7%<sup>3</sup>, respectively.

The U.S. Federal Reserve cut its overnight fed funds rate by 0.25% at its October and December meetings and took the effective Fed Funds rate from 4.09% down to 3.64%. Chair Powell indicated that the rate was now within the upper range of neutral and the committee would take a pause in cuts while it evaluates new macroeconomic data. U.S. Treasury yields fell at the front of the curve out to 5 years while the 10-year yield increased 0.02%. As a result, the Treasury curve steepened with the spread between the 10-year and 2-year yields increasing 0.15% to 0.69%.

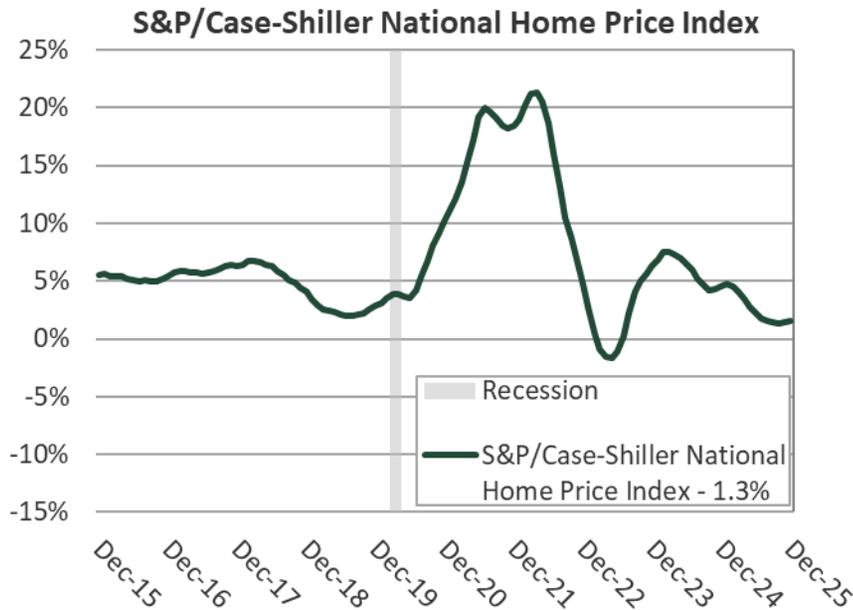

Investment-grade and high yield corporate bond spreads widened in the first half but finished the quarter unchanged. Investment grade spreads peaked at 0.86% in November but ended the quarter up 0.03% to 0.79%<sup>1</sup>. High-yield spreads peaked at 3.20% in November but finished the quarter up 0.01% to 2.81%<sup>2</sup>. Both spreads remain near historically tight levels indicating the market is pricing little credit related risk and an optimistic outlook for U.S. businesses.

European 10-year government bond yields were mixed. German bonds increased 0.14%, U.K. gilts declined 0.22% and French bonds increased 0.03%. Japanese 10-year government yields continued to rise, increasing 0.42% to 2.07%, which is the highest yield since 1999. Its currency, the Yen weakened 5.6% and ended the quarter at ¥156.72/USD. Chinese 10-year yields declined 0.02% to 1.86%; Chinese yields are up from the low of 1.63% in April following the U.S. tariff announcement, reflecting an easing of concerns due to the trade tensions with the U.S.

Real Estate Investment Trust performance in 2025 was modest, reflecting uneven results across regions. Against this backdrop, global REITs declined 1.1%<sup>1</sup> in Q4 but finished the year up 7.2%. Non-U.S. REITs returned 1.2%<sup>1</sup> in Q4 and 25.2% for the full year, while U.S. REITs fell 2.0%<sup>2</sup> in Q4 and gained 1.7% for the year, underperforming their international peers. This gap was driven by heavier U.S. exposure to office properties, higher refinancing costs, and a slower recovery in transaction activity. Currency effects also contributed, as a softer U.S. dollar supported non-U.S. REIT returns. Income remained the primary driver of performance, with REIT dividend yields near 4.1%, well above the broader equity market and supportive of total returns and consistent cash flow for long-term investors.

Q4 was more challenging, as December weakness emerged despite broadly stable long term Treasury yields. Rate sensitivity weighed on some sectors, though timberland, lodging, and apartments proved more resilient. Mortgage REITs outperformed for the year, supported by lower interest rates and improving funding conditions. Looking ahead, limited new supply, disciplined balance sheets, and durable demand tied to demographics and digital infrastructure support a more constructive setup for 2026. After a period of underperformance, REITs are positioned to deliver durable income, portfolio diversification, and improved long term return potential as valuations reset and cash flows remain resilient.

The S&P GSCI production weighted commodity index increased 1.0%<sup>1</sup> in the fourth quarter. The energy spot subindex, which represents the majority of the overall commodity index was down 5.0%<sup>1</sup> due to the continued weakness in oil prices. The price of WTI oil declined 7.9%<sup>2</sup> from \$62 per barrel to \$57 per barrel.

The largest contributors to the commodity index were the metals, with the industrial metals subindex up 15.8%<sup>1</sup> and the precious metals subindex up 15.6%<sup>1</sup>. Copper prices increased 17.0%<sup>2</sup> and ended the quarter at \$5.68 per pound, near all-time highs. The price increase was driven by new demand from A.I. and the build out of data centers, which added to the continued secular demand from electric vehicles and renewable energy. Precious metals continued to climb in their bull market, with the price of silver in particular accelerating higher. The price of silver increased 51.4%<sup>2</sup> to \$70.60 per ounce. Silver was added to the U.S. Geological Survey (USGS) list of critical minerals in November, which formalized its strategic importance for the U.S. In addition, China reclassified silver as a strategic mineral and implemented tighter export restrictions that began January 1. The price of gold increased 13.0%<sup>2</sup> to \$4,341, driven by sustained demand from global central banks diversifying their reserves out of fiat currencies.

## IMPORTANT DISCLOSURES

2025 Chandler Asset Management, Inc, An Independent Registered Investment Adviser.

Information contained herein is confidential. Prices are provided by ICE Data Services Inc (“IDS”), an independent pricing source. In the event IDS does not provide a price or if the price provided is not reflective of fair market value, Chandler will obtain pricing from an alternative approved third party pricing source in accordance with our written valuation policy and procedures. Our valuation procedures are also disclosed in Item 5 of our Form ADV Part 2A.

Performance results are presented gross-of-advisory fees and represent the client’s Total Return. The deduction of advisory fees lowers performance results. These results include the reinvestment of dividends and other earnings. Past performance may not be indicative of future results. Therefore, clients should not assume that future performance of any specific investment or investment strategy will be profitable or equal to past performance levels. All investment strategies have the potential for profit or loss. Economic factors, market conditions or changes in investment strategies, contributions or withdrawals may materially alter the performance and results of your portfolio.

Index returns assume reinvestment of all distributions. Historical performance results for investment indexes generally do not reflect the deduction of transaction and/or custodial charges or the deduction of an investment management fee, the incurrence of which would have the effect of decreasing historical performance results. It is not possible to invest directly in an index.

Any opinions or views expressed are based on current market conditions and are subject to change. This report may contain forecasts and forward-looking statements which are inherently limited and should not be relied upon as indicator of future results. Past performance is not indicative of future results. This report is not intended to constitute an offer, solicitation, recommendation or advice regarding any securities or investment strategy and should not be regarded by recipients as a substitute for the exercise of their own judgment.

Fixed income investments are subject to interest, credit and market risk. Interest rate risk: the value of fixed income investments will decline as interest rates rise. Credit risk: the possibility that the borrower may not be able to repay interest and principal. Low rated bonds generally have to pay higher interest rates to attract investors willing to take on greater risk. Market risk: the bond market in general could decline due to economic conditions, especially during periods of rising interest rates.

Ratings information have been provided by Moody’s, s&P and Fitch through data feeds we believe to be reliable as of the date of this statement, however we cannot guarantee its accuracy.

Security level ratings for U.S. Agency issued mortgage-backed securities (“MBS”) reflect the issuer rating because the securities themselves are not rated. The issuing U.S. Agency guarantees the full and timely payment of both principal and interest.

**RECEIVE AND FILE A REPORT ON THE USE OF GENERAL DISTRICT  
PROPERTY TAX REVENUE TO OFFSET THE DEFICIT IN THE COMBINED  
DESALTER ENTERPRISE FUND FOR FISCAL YEAR 2024-2025 AND  
ALLOCATE ADDITIONAL PROPERTY TAX FUNDS FOR FUTURE USE**

**RECOMMENDATION:**

The Finance Committee and Staff recommend the Board of Directors:

1. Receive and file a report on the use of General District property tax revenue to offset the deficit in the Combined Desalter Enterprise Fund for Fiscal Year 2024-2025.
2. Allocate the use of up to \$5 million in General District property tax revenue to accommodate any deficit in the Combined Desalter fund resulting from operational challenges or lower demand through Fiscal Year 2027-2028, while staff determines the future direction of the Combined Desalter Enterprise.

**EXECUTIVE SUMMARY:**

In February 2023, the Board of Directors authorized the General Manager to execute a Water Purchase Agreement for Wholesale Enterprise Water with neighboring retail water agencies. The Board of Directors also authorized the use of up to \$4 million in General

District property tax revenue to accommodate any deficit in the Combined Desalter Enterprise Fund resulting from operational challenges during the pilot program. Per the original Board action, staff is required to report the amount of General District property tax revenue used to offset any operating deficit in the Combined Desalter Enterprise Fund for each fiscal year. In addition to the annual reporting, Staff is also requesting additional General District property tax revenue be allocated for use to offset any deficit in the Combined Desalter Enterprise fund through June 30, 2028.

**BUDGET IMPACT:**

The use of property tax revenue for the Combined Desalter Enterprise is unbudgeted since the amount and timing of use is unknown until operations and transactions are complete for the fiscal year. The General District has accumulated sufficient available reserves from property tax revenue in prior years to accommodate this use.

**DETAIL:**

On February 15, 2023, the Board of Directors authorized the General Manager to execute a Water Purchase Agreement for Wholesale Enterprise Water with Jurupa Community Services District and the cities of Norco and Corona. This Water Purchase Agreement created a two- and one-half-year pilot program to test the Combined Desalter Enterprise system's flexibility to ensure the needs of participating agencies could be met considering varying seasonal demands, while at the same time ensuring cost effective operation of the interconnected system. The Board of Directors also authorized the use of up to \$4 million in General District property tax revenue to accommodate any deficit in the Combined Desalter Enterprise Fund resulting from operational challenges during the pilot program that prevent the expected quantity of water from being produced and delivered.

The Combined Desalter Enterprise water rate per acre-foot (AF) was developed to cover operating, debt service, and asset replacement expenses of Combined Desalter Enterprise assets. These assets include the Arlington Desalter, the Chino Desalter, the Victoria Recharge Basin, the Sterling Pump Station and the La Sierra Pipeline. For Fiscal Year (FY) 2024-2025 the water rate was set at \$1,121 per AF and assumed 10,070 AF of water would be produced and delivered during the fiscal year. At the end of FY 2024-2025, only 7,516 AF was produced and delivered through the Combined Desalter Enterprise. This production shortfall was largely due to a customer not being able to take their projected share of water because of issues within their own system. Other Combined Desalter customers also took less than their projected shares due to decreased demand in their respective service areas.

**Western Water | Regular Board Meeting**  
**March 4, 2026**  
**Agenda Item: 8B**

In FY 2024-2025, the annual production for the Combined Desalter Enterprise was short of the target by twenty-five percent. Because of the reduced production and delivery, fixed and variable operating expenses were lower than projected and yielded an overall favorable variance for operating expenses. Unfortunately, the production shortfall meant not enough revenue was collected in the water rate to cover all the asset replacement, capital, and debt service expenditures and resulted in a deficit of \$2,103,383.

As noted above, the Board authorized the use of up to \$4 million in General District property taxes to offset deficits in the Combined Desalter Enterprise Fund during the pilot program. In Fiscal Year 2022-2023, General District property tax revenue in the amount of \$753,725 was used. In Fiscal Year 2023-2024, \$768,364 of property tax revenue was used. Prior to Fiscal Year 2024-2025, the authorized property tax offset remaining balance was \$2,477,911. After utilizing \$2,103,383 in property tax revenue to offset the deficit for Fiscal Year 2024-2025, the authorized amount of property tax funds available for use is \$374,528.

While planning for Fiscal Year 2025-2026, staff anticipated that the Combined Desalter pilot program would be extended (since negotiations with participating customers were ongoing). As such, a Combined Desalter rate for FY 2025-2026 was developed. However, at the end of Fiscal Year 2024-2025, the Combined Desalter Enterprise pilot program was not extended by the participating customers as planned. Discussions and negotiations with Combined Desalter customers continue. During this transition period, the Combined Desalter Enterprise has been operating under the status quo and customers purchasing water from the Combined Desalter assets have been billed according to the rates established in Resolution 3355 for Fiscal Year 2025-2026.

In January 2026, Western Water and Jurupa Community Services District (JCSD) executed a Memorandum of Understanding (MOU) where JCSD agreed to temporarily purchase Western Water's Chino Desalter (CDA) water until a longer-term regional agreement could be negotiated. Under this agreement, JCSD agreed to purchase up to 3,534 acre-feet (AF) of Western Water's CDA allocation at the published Western Water CDA rate. For Fiscal Year 2025-2026 this rate was set at \$1,098 per AF. The MOU with JCSD has an end date of December 31, 2027. The MOU also has the opportunity for three annual extensions as agreed to by both parties.

While staff works toward long-term system planning and optimization, the Combined Desalter Enterprise fund may continue to experience a deficit due to reduced water sales and increasing operational, asset replacement, and capital costs. Staff requests the Board of Directors allocate an additional \$5 million in General District property tax

**Agenda Item: 8B**

revenue to support the Combined Desalter Enterprise fund until a longer-term operational plan and agreements are in place. Staff will continue to report on use of property tax funds on a bi-annual basis.

**REASON FOR ACTION:**

Per Board action, staff is to report the amount of General District property tax revenue used to offset any operating deficit in the Combined Desalter Enterprise Fund for each fiscal year. Additionally, as the initial \$4 million property tax allocation approved by the Board has been mostly depleted, staff is requesting additional funds be allocated for use to offset operating deficits in the Combined Desalter Enterprise Fund until operational challenges are resolved and long-term planning is complete which is anticipated by the end of Fiscal Year 2027-2028.

**SOLUTION:**

Receive and file the Fiscal Year 2024-2025 annual report of property tax use and allocate \$5 million in additional property tax revenue for the purpose of offsetting fiscal year deficits to the Combined Desalter Enterprise fund through Fiscal Year 2027-2028.

**ADOPT RESOLUTION CONCURRING IN NOMINATION OF ELSINORE VALLEY MUNICIPAL WATER DISTRICT BOARD MEMBER, ANDY MORRIS, TO THE CALIFORNIA WATER INSURANCE FUND BOARD, AN ACWA JPIA CAPTIVE INSURANCE COMPANY**

**RECOMMENDATION:**

Staff requests the Board of Directors:

1. Adopt Resolution 3374, concurring with the Santa Rosa Regional Resources Authority's nomination of Elsinore Valley Municipal Water District Board Member Andy Morris to the California Water Insurance Fund Board.

**EXECUTIVE SUMMARY:**

The California Water Insurance Fund will be holding its election to fill seats at the Association of California Water Agencies Joint Powers Insurance Authority's meeting in May 2026. The Santa Rosa Regional Resources Authority has nominated its Board member Andy Morris from Elsinore Valley Municipal Water District to serve on the ACWA JPIA California Water Insurance Fund Board and Elsinore Valley Municipal Water District has requested Western adopt a concurring resolution in nomination of Mr. Morris.

**BUDGET IMPACT:**

This item has no budget impact.

**DETAIL:**

In 2024, and previously in 2022 and 2019, Santa Ana Regional Resources Authority (SRRRA) nominated its Board Member, Andy Morris, to serve on the Association of California Water Agencies (ACWA JPIA) California Water Insurance Fund Board, and he was successfully elected. Mr. Morris' term to the Board is concluding, and he has expressed a desire to serve another two-year term in this role. As such, SRRRA has again nominated Andy Morris to the ACWA JPIA Board for another term. ACWA JPIA agency members that are nominated by their primary agency are required to obtain the concurrence of three other JPIA member agencies, in order to qualify for ballot placement. As a fellow member of ACWA JPIA, Western Municipal Water District (Western Water) has been asked to provide a concurring resolution in nomination of Mr. Morris.

During his term on the ACWA JPIA Board, Mr. Morris has served the member agencies well, and his expertise in the insurance industry has, and will continue to be an asset to the Board. Mr. Morris is a current Board member not only to SRRRA, but is a Director and current Board President of the EVMWD, where he has served since November 2010, holding several leadership roles, including Treasurer in 2012 and 2015, Vice President in 2013 and 2022, and President in 2014, 2019 and 2020.

Given his experience with both ACWA JPIA and EVMWD, staff is confident Director Morris is a qualified candidate for the ACWA JPIA open seat.

**REASON FOR ACTION:**

EVMWD requested Western Water submit a concurring resolution in support of Director Andy Morris' nomination to the ACWA JPIA Board.

**SOLUTION:**

Adopt Resolution 3374.

**STRATEGIC PRIORITIES REFERENCE:**

This action is consistent with Western Water's routine business activity.

Staff has determined that review by legal counsel is not necessary for this item.
