# SEWER RATES

## RESIDENTIAL CUSTOMERS

The rates for residential customers are based on an equivalent dwelling unit (EDU). One EDU is the quantity of sewage an average single-family residential customer contributes to the sewer system. Each residential home is assigned one EDU.

## COMMERCIAL CUSTOMERS

Commercial customers are assigned EDUs based on their expected peak sewage flows relative to an average single-family residential customer. The EDU amounts for commercial, industrial, and institutional customers can be found on the customer’s billing statement.
